Liquidations: results for April 2020

Table A – Number of liquidations

Number of liquidations April 2020	% change between February to April 2019 and February to April 2020	% change between January to April 2019 and January to April 2020
0	-37,8	-31,8

The Companies and Intellectual Property Commission (CIPC) reported zero liquidations in April 2020. Owing to the COVID-19 lockdown, the CIPC was closed in April 2020. Under the circumstances, April 2020 could be revised if Statistics South Africa receives updated information from the CIPC.

The total number of liquidations decreased by 37,8% in the three months ended April 2020 compared with the three months ended April 2019. Voluntary liquidations decreased by 147 cases, while compulsory liquidations decreased by 41 cases during this period. There was a decrease of 31,8% in the first four months of 2020 compared with the first four months of 2019.

Insolvencies: results for March 2020

Table B – Number of insolvencies

Number of insolvencies March 2020	% change between March 2019 and March 2020	% change between January to March 2019 and January to March 2020
175	-23,6	-6,6

The estimated number of insolvencies decreased by 23,6% in March 2020 compared with March 2019. A 6,6% decrease was estimated in the first quarter of 2020 compared with the first quarter of 2019.

Seasonally adjusted insolvencies decreased by 22,0% in March 2020 compared with February 2020. This followed month-on-month changes of -4,5% in February 2020 and 12,0% in January 2020 – see Table 6.

Explanatory notes

- | | | |
|----------------------------------|----------|--|
| Introduction | 1 | Statistics South Africa (Stats SA) collects administrative information on liquidations from Companies and Intellectual Property Commission, Department of Trade, Industry and Competition, while information on insolvencies is gathered from Notices of the Master of the High Court that appear in the Government Gazette. |
| | 2 | This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships. |
| Purpose of the survey | 3 | The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa. |
| | 4 | Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations. |
| Scope of the survey | 5 | <p>This survey covers the total number of:</p> <ul style="list-style-type: none"> • companies and close corporations which were liquidated; and • individuals and partnerships placed under final sequestration. |
| Symbols and abbreviations | 6 | Stats SA – Statistics South Africa |
| Seasonal adjustment | 7 | Seasonally adjusted estimates are generated each month using the X-12-ARIMA Seasonal Adjustment Program developed by the US Bureau of the Census, 1968. Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be recognised more clearly. Seasonal adjustment does not aim to remove irregular or non-seasonal influences which may be present in any particular month. |
| | 8 | <p>Influences that are volatile or unsystematic can still make it difficult to interpret the movement of the series even after adjustment for seasonal variations. This means the month-to-month movements of seasonally adjusted estimates may not be reliable indicators of trend behaviour. The X-12-ARIMA procedure for liquidations and insolvencies is described in more detail on the Stats SA website:</p> <p>click to download seasonal adjustment P0043 April 2018</p> |
| Trend cycle | 9 | The trend is the long-term pattern or movement of a time series. The X-12- ARIMA Seasonal Adjustment Program is used for smoothing seasonally adjusted estimates to estimate the underlying trend cycle. |

Glossary

- | | |
|-------------------------------|---|
| Compulsory liquidation | A compulsory liquidation takes place when the affairs of a company or close corporation are wound up by order of the court. |
| Insolvency | Insolvency refers to an individual or partnership which is unable to pay its debt and is placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded as one insolvency, irrespective of the number of partners. |
| Liquidation | Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court. |
| Voluntary liquidation | A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs. |

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
