Liquidations: results for March 2022

Table A – Number of liquidations

Number of liquidations March 2022	% change between March 2021 and March 2022	% change between January to March 2021 and January to March 2022
182	-15,7	-10,5

The total number of liquidations recorded decreased by 15,7% (34 fewer cases) in March 2022 compared with March 2021. Voluntary liquidations decreased by 41 cases, while compulsory liquidations increased by 7 cases.

The total number of liquidations decreased by 10,5% in the first quarter of 2022 compared with the first quarter of 2021.

Figure 1 – Number of liquidations

Insolvencies

Owing to a cyber attack on the Department of Justice and Constitutional Development, source information for insolvencies is not available from September 2021 (see Tables 5 and 6). The time series has been discontinued until further notice.

Users of the liquidations and insolvencies data are kindly requested to send their contact details (see below) to Ms Joyce Essel-Mensah at JoyceE@statssa.gov.za:

Explanatory notes

Introduction	1	Statistics South Africa (Stats SA) collects administrative information on liquidations from Companies and Intellectual Property Commission, Department of Trade, Industry and Competition, while information on insolvencies is gathered from Notices of the Master of the High Court that appear in the Government Gazette.
	2	This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships.
Purpose of the survey	3	The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa.
	4	Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations.
Scope of the survey	5	This survey covers the total number of: <ul style="list-style-type: none"> • companies and close corporations which were liquidated; and • individuals and partnerships placed under final sequestration.
	6	Stats SA – Statistics South Africa
Seasonal adjustment	7	Seasonally adjusted estimates are generated each month using the X-12-ARIMA Seasonal Adjustment Program developed by the United States Census Bureau. Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be recognised more clearly. Seasonal adjustment does not aim to remove irregular or non-seasonal influences which may be present in any particular month.
	8	Influences that are volatile or unsystematic can still make it difficult to interpret the movement of the series even after adjustment for seasonal variations. This means the month-to-month movements of seasonally adjusted estimates may not be reliable indicators of trend behaviour. The X-12-ARIMA procedure for liquidations and insolvencies is described in more detail on the Stats SA website: click to download seasonal adjustment P0043 April 2018 Note: Owing to the impact of the COVID-19 lockdown, additive outlier adjustments were performed. The methodology will be reviewed as more data points are added to the time series.
Trend cycle	9	The trend is the long-term pattern or movement of a time series. The X-12- ARIMA Seasonal Adjustment Program is used for smoothing seasonally adjusted estimates to estimate the underlying trend cycle.

Glossary

Compulsory liquidation	A compulsory liquidation takes place when the affairs of a company or close corporation are wound up by order of the court.
Insolvency	Insolvency refers to an individual or partnership which is unable to pay its debt and is placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded as one insolvency, irrespective of the number of partners.
Liquidation	Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court.
Voluntary liquidation	A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs.

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

Stats SA products

A complete set of Stats SA publications is available at the Stats SA library and the following libraries:

National Library of South Africa, Pretoria Division
National Library of South Africa, Cape Town Division
Natal Society Library, Pietermaritzburg
Library of Parliament, Cape Town
Bloemfontein Public Library
Johannesburg Public Library
Eastern Cape Library Services, Qonce
Central Regional Library, Polokwane
Central Reference Library, Mbombela
Central Reference Collection, Kimberley
Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

Electronic services

A large range of data is available via online services. For more detail about our electronic services, contact Stats SA's user information service at (012) 310 8600.
