GENERAL INFORMATION	12

KEY FINDINGS

Headline consumer price index (CPI for all urban areas)

Annual consumer price inflation was 5,5% in November 2021, up from 5,0% in October 2021. The consumer price index increased by 0,5% month-on-month in November 2021.

The main contributors to the 5,5% annual inflation rate were food and non-alcoholic beverages; housing and utilities; transport; and miscellaneous goods and services.

Food and non-alcoholic beverages increased by 5,5% year-on-year, and contributed 1,0 percentage point to the total CPI annual rate of 5,5%.

Housing and utilities increased by 3,9% year-on-year, and contributed 1,0 percentage point.

Transport increased by 15,0% year-on-year, and contributed 2,1 percentage points.

Miscellaneous goods and services increased by 4,2% year-on-year, and contributed 0,7 of a percentage point.

In November the annual inflation rate for goods was 7,9%, up from 7,1% in October; and for services it was 3,1%, up from 3,0% in October.

Note: Not all items in the CPI are surveyed every month. Table F shows the survey schedule for items that are not surveyed monthly.

Risenga Maluleke
Statistician-General

IMPORTANT NOTES

Changes to the weights of the CPI to be implemented in January 2022

The weights of the CPI will be updated with effect from the January 2022 release to be published in February 2022. The last reweighting was implemented in January 2017.

International standards require that the weights of the CPI, which reflect proportions of consumer expenditure, be updated at least every five years. These proportions are usually derived from a detailed survey of household expenditure. Regrettably, due to funding constraints, Stats SA has been unable to run its Income and Expenditure Survey in the past six years. In situations where recent household expenditure data are not available, international guidelines permit the use of alternative data sources to adjust the weights to account for changes in consumer spending.

Changes in the detail of the household final consumption expenditure component of the national accounts from 2016/2017 to 2019 will be used to update the CPI weights. Additional data sources such as Stats SA surveys, administrative records and company sales information will supplement the national accounts estimates. Where fresh data are not available at detailed product or geographic level, the existing proportions will be retained, with adjustments being made at higher-level aggregates.

In product categories where sufficiently detailed data are available, changes to the CPI basket will be considered. All indices will be rebased to December 2021 = 100.

Changes to the method of collecting price data from retail stores

Price information for categories of products typically purchased in retail outlets is currently collected by Stats SA fieldwork teams using paper forms. Starting in the first quarter of 2022, the paper forms will be replaced by tablets. Prices will be collected using a custom application which includes quality control and management modules. The new collection method is expected to improve the quality and speed of data collection and processing.

COVID-19

Resulting from COVID-19 health protocols, retail-based prices recorded across all regions (including online prices) have been pooled to create national average price changes which are then applied to each elementary index at a regional level. This means that the geographic index (including total country) changes will, in the main, vary according to different weights and not different price changes.

DETAILED RESULTS

Table A - Consumer Price Index: Main indices

Unless otherwise stated the table refers to all urban areas.

Group		Weight	Index (Dec 2016=100)			Percentage change		
			Nov 2020	Oct 2021	Nov 2021	Nov 2021 vs. Oct 2021	Nov 2021 vs. Nov 2020

July, August	Municipal charges for water, property rates and electricity (Housing and utilities)
Annual	
January	Post box rental (Communication) Lotto tickets (Recreation and culture)
February	Private-sector doctors and dentists (Health)
March	School and university tuition fees (Education) Toll fees (Transport) University boarding fees (Restaurants and hotels) Crèche fees (Miscellaneous)
April	Public-sector hospitals and doctors (Health) Stamps (Communication)
Other	
January, March, April, June, July, September, October, December	Local bus fares (Transport)

Additional surveys are conducted for these items when Stats SA is aware of significant price changes outside regular survey months.

GLOSSARY

A complete set of definitions is available in the methods and sources document on the Stats SA website http://www.statssa.gov.za/?page_id=2528

Annual inflation rate	The annual inflation rate is the change in the index of the relevant month of the current year compared with the index of the same month in the previous year expressed as a percentage.
Annual percentage change	The annual percentage change is the change in the index of the relevant month of the current year compared with the index of the same month in the previous year expressed as a percentage.
Average annual inflation rate	The average annual inflation rate is the change in the average index of one year compared with the average index of the previous year expressed as a percentage.
Average annual percentage change	The average annual percentage change is the change in the average index of one year compared with the average index of the previous year expressed as a percentage.
CPI for administered prices	An administered price is defined as the price of a product which is set consciously by an individual producer or group of producers and/or any price which can be determined or influenced by government, either directly or through a government agency/institution without reference to market forces. Products and services included are assessment rates, water, electricity, paraffin, petrol, diesel, public transport – trains, motor licences, motor registration, telephone fees, cell calls, television licence, school fees, university/technicons/colleges and university boarding fees.
CPI for regulated prices	Regulated prices are those administered prices that are monitored and controlled by government policy. To this end, price regulation does not necessarily imply the presence of an economic regulator, but the restriction on the extent to which prices may vary, depending on government's policy objective. Products and services included are water, electricity, paraffin, petrol, diesel, telephone fees and cell calls.
CPI per expenditure decile	Decile 1 - up to R17 721; Decile 2 - R 17 722 up to R 29 475; Decile 3 - R 29 476 up to R 42 582; Decile 4 - R 42 583 up to R 56 909; Decile 5 - R 56 910 up to R 73 813; Decile 6 - R 73 814 up to R 94 884; Decile 7 - R 94 885 up to R 124 227; Decile 8 - R 124 228 up to R 173 022; Decile 9 - R 173 023 up to R 269 902; and Decile 10 - R 269 903 and more.
Inflation rate	The inflation rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.
Monthly percentage change	The monthly percentage change is the change in the index of the relevant month compared with the index of the previous month expressed as a percentage.
Rural CPI	The rural CPI is compiled using data from rural and urban areas in accordance with the purchasing patterns of rural residents.

GENERAL INFORMATION

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

Advance release calendar

An advance release calendar is disseminated on www.statssa.gov.za

Forthcoming issues

Issue	Expected release date
December 2021	19 January 2022
January 2022	16 February 2022
February 2022	23 March 2022

Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:

- National Library of South Africa, Pretoria Division
- National Library of South Africa, Cape Town Division
- Natal Society Library, Pietermaritzburg
- Library of Parliament, Cape Town
- Bloemfontein Public Library
- Johannesburg Public Library
- Eastern Cape Library Services, Qonce
