CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

Department:
Statistics South Africa
REPUBLIC OF SOUTH AFRICA

BID SPECIFICATION FOR THE APPOINTMENT OF A SERVICE PROVIDER TO FACILITATE PROCESSING OF SALARIES IN THE MONTH OF MARCH 2022, TO APPROXIMATELY 165 000 FIELDWORK STAFF APPOINTED FOR THE MAIN CENSUS 2022.

1. AIM

To acquire the services of an external financial services provider for facilitating the processing and payment of salaries to approximately 165 000 fieldwork staff who are likely to be appointed as fieldworkers and fieldwork supervisors for the Main Census scheduled to be implemented from 2nd February 2022 to 9th March 2022. This will form a crucial part of the contingency plan for payments to all field staff. The payments are likely to be processed in the month of March 2022, after enumeration has been concluded.

2. BACKGROUND

Undertaking the population census is the most extensive and complicated statistical operation that Statistics South Africa (Stats SA) delivers to South Africa. Therefore, Stats SA continuously revises and improves its business processes and systems that form part of the census project.

Stats SA currently has 9 (nine) provincial and 54 (fifty-four) district offices, across the country.

The fourth post-apartheid census is scheduled to be conducted in the 2021/22 financial year, with the Pilot concluded in the months of July and August 2021 and the Main scheduled to take place from 2nd February to 9th March 2022.

Stats SA has created an end-to-end system that provides a seamless connection between the various work streams within the project. For the first time in history, during the Pilot phase, nearly 80% of all payments were uploaded to PERSAL (PERSAL is the government's transversal system where appointments/terminations and payments relating to its employees are processed).

One of the biggest challenges facing Stats SA is processing payments to field staff within a period of 7 (seven) working days after the conclusion of the enumeration phase, as envisaged in the Census project charter.

Currently, payments to field staff is heavily dependent on appointments being processed on PERSAL as the banking details of the individuals' form part of the mandatory information that is processed during appointments.

However, the very limited time frame available to Stats SA between training and appointing of field staff within the appointment process, renders it essential to have a contingency payment plan in place, in order to cater for the eventuality that the processing of appointments on PERSAL, may be delayed.

Hence the need for a contingency plan for processing payments in time and then updating the necessary records payments and tax records on PERSAL.
