Preamble

This enumeration guide will assist you and your household if you are unable to follow instructions in the questionnaire during the process of completing the Census 2011 household questionnaire. Examples on some sections of the questionnaire are also provided to assist. If the guide is still of no help to you, you are encouraged to call the Census 2011 hotline (0800 110 248), where there will be someone to assist you in completing the questionnaire correctly.

Objectives of the guide

- To assist households in completing the Census 2011 questionnaire
- To outline key aspects of the questionnaire

What is the Census about?

A population census is a total count of people in a country. Basic questions are asked about the number of people and where they live to determine their needs. The census is done to enable the government, private sector, non-governmental organisations (NGOs) as well as community-based organisations (CBOs) to understand the composition of the population and to make plans based on evidence. Most questions in the census are also used as inputs to measure how far the Millennium Development Goals (MDGs) have been achieved.

A census is about benefiting the country as a whole and everybody who lives in it (rich or poor). That is why it is very important for people to understand the census and participate fully in order to make it a success.

After the advent of democracy, South Africa has already conducted two censuses (1996 and 2001). The October 2011 census will be the third census to be conducted in the country.

Census in South Africa

- South Africa conducts a census where people are counted according to where they spent the census night (snapshot of the country on census night).
- People will be counted from where they spent the **census night** (which is the midnight of 9–10 October 2011).

CENSUS 2011
You Count!

Census 2011 hotline: 0800 110 248

- From the morning of 10 October (census day), census officials will visit every home to count all people that:
 1. Spent the census night (midnight 9–10 October) with the household including **VISITORS**
 2. Were travelling back home on census night
 3. Were working on census night (e.g. nurses, security guards, police, etc.)
 4. Were away on census night attending religious gatherings such as night prayers, or social gatherings (e.g. nightclubs, etc.)
- On **census day**, you are requested to write down the names of every person that spent the census night/day (as per numbered points above) with the household. The list will help the household or census official to complete the correct information on the questionnaire without forgetting anybody.

Your answers are confidential

- The Statistics Act (Act No. 6 of 1999) sections 17 and 18 states that the information provided for the census shall be kept confidential, and that persons involved in the collection of census data must first take an oath of confidentiality.

The law also provides that any person found guilty of disclosing data collected to other parties, is liable on conviction to a fine not exceeding R10 000, or imprisonment for a period not exceeding 6 months or both. This means that the information that you provide as a respondent during the census will be **kept confidential and will NOT be discussed with any other government departments or organisations.**

Census questionnaire completion

General guidelines:

1. A census questionnaire will be issued to your household for completion if you wish to complete the questionnaire yourselves.
2. In cases where the household may need a second (or third) questionnaire, the census official will provide his/her telephone number on the cover page of the questionnaire. This number can be used for any queries regarding the questionnaire.
3. Every household that has a **paid** live-in domestic worker (including drivers and gardeners) must obtain a separate census questionnaire for that person, even if the person is considered part of the household.

CENSUS 2011
You Count!

4. **You are requested to complete the entire questionnaire.**
5. PLEASE COMPLETE THE QUESTIONNAIRE ONLY AFTER THE CENSUS NIGHT (MIDNIGHT 9–10 OCTOBER 2011).
6. Please consult every member of your household for age and other information that you might not have readily available when completing the questionnaire on their behalf.
7. If words are too long, use standard abbreviations (e.g. Johannesburg Metropolitan Municipality: Joburg metro, or Statistics South Africa: Stats SA).
8. Do not leave spaces between the words.
9. Some questions may seem personal, e.g. sex, income, children no longer alive, but they are all useful and necessary for planning.
10. Please answer the questions honestly so that the government can obtain accurate information.
11. Please write/mark in the centre of the boxes/ovals provided. See example below:

Skips/Instructions:

1. Skips are there to help you complete relevant questions and leave out the ones that do not apply to you and some of your household members. For example, pay extra attention to instructions on skips such as "If 01-09 or 11 on Province of birth (P-07), then Go to Citizenship (P-09)"
2. Note that a skip is applicable to individuals, not the whole household.
3. Other instructions are part of section headings, e.g. Employment: ask of all persons aged 15 years and older listed on the flap.

Remember:

- **Keep the census form neat and away from children.**
- **When or after completing the questionnaire, do not fold, seal, laminate, remove pages or damage the questionnaire.**
- **All completed and partly completed questionnaires must be given back to the census official on time (before or on 31 October 2011).**
- **In cases where the official requires you to provide information that you could have missed, please do so.**

Questionnaire sections

1. Cover page

- **DO NOT COMPLETE THE COVER PAGE** of the questionnaire as the census official will complete the information for you before leaving the questionnaire with your household.

2. Flap: Particulars of all individuals

Purpose: This page will collect information on name, age and gender of every household member and all visitors present on census night.

- The first person to be listed on the census questionnaire must be the **head or acting head of the household (a household member that makes decisions for the household)**.
- If the household has two equal decision-makers, then the oldest person of the two will be put as the head of household (person 01).

CENSUS 2011
You Count!

- F-00: Complete the leading zeros for each person in the household (depending on the number of people in the household). E.g. First person in the questionnaire (head of household) must be 01, followed by person 02, then 03 for the third person, etc.
- If there are more than 10 people in the household, use a second questionnaire (start with 11 in the second questionnaire until person 20).
- Names are used for reference purposes when completing the questionnaire. Names will not be processed.
- The names of the head of the household must be written in full (name and surname). For the rest of the household members sharing the same surname as the head of household, only their names can be completed. Those members with a different surname to that of the head of the household must complete their names in full (name and surname).
- For age, please provide completed years, e.g. if a baby is nine months old, complete 000, as the baby is not yet a year old. For a person aged 17 and 11 months, complete 017 as the person is not yet 18 years old.

a. Example – Flap (below):

- This household had three people on census night. Note that the examples are there to guide you when completing information for your own household.

3. Section A: Demographics (*remember to follow instructions*)

Purpose: The information is collected to establish the total population of the country, their gender, age and other characteristics.

- This section must be completed for every person listed on the questionnaire.
- A person who is not married should not answer the question on who their spouse/partner is, e.g. "If 3-6 on Marital status (P-03), then Go to Population group (P-05)".

4. Section B: Migration (*remember to follow instructions*)

Purpose: Information is used to measure the movement of people from one geographical area to another for better understanding of the population and for planning purposes.

- This section must be completed for every person listed on the questionnaire.
- A person whose usual residence is outside South Africa should not answer the questions on province or municipality of usual residence.
- If municipality/magisterial district is not known, leave the question blank.

b. Example – Migration (below):
