## SUBMISSION OF THE REPORT TO THE EXECUTIVE AUTHORITY

Dr Nkosazana Dlamini-Zuma (MP)

It is my pleasure to submit the 2017/18 Annual Report of Statistics South Africa for the period 1 April 2017 to 31 March 2018, in compliance with section 7(2)(c) of the Statistics Act, 1999 (Act No. 6 of 1999), section 40(1)(d)(i) of the Public Finance Management Act, 1999 (Act No. 1 of 1999), and in accordance with section 18 of the Treasury Regulations.

Risenga Maluleke  
Statistician-General

## **STATEMENT OF RESPONSIBILITY FOR PERFORMANCE INFORMATION FOR THE YEAR ENDED 31 MARCH 2018**

The Accounting Officer is responsible for the preparation of the department's performance information and for the judgements made in this information.

The Accounting Officer is responsible for establishing and implementing a system of internal control designed to provide reasonable assurance as to the integrity and reliability of performance information.

In my opinion, the performance information fairly reflects the performance information of the department for the financial year ended 31 March 2018.

Statistician-General (Accounting Officer)

## 1. INTRODUCTION

The Annual Report of Statistics South Africa (Stats SA) is an integral part of financial and non-financial reporting with the intention of promoting accountability and transparency. For the 2017/18 financial year, Stats SA is presenting its financial and non-financial information in two parts in order to improve cost-efficiency in the production of the report. The two parts consist of:

**Book 1** provides general information, summary performance information, governance, human resource management information and detailed financial information. Book 1 provides an overview of the organisational performance, achievements and challenges and a detailed account of the financial performance and position of the organisation. The Auditor-General's findings are included in this book. Book 1 is available in both print and electronic formats, and is accessible on the Stats SA website: [www.statssa.gov.za](http://www.statssa.gov.za)

**Book 2** provides a detailed account of performance information in tabular format in relation to the Strategic Plan and Work Programme. Book 2 is available in electronic format and on the Stats SA website: [www.statssa.gov.za](http://www.statssa.gov.za)

## 2. PERFORMANCE INFORMATION AGAINST PREDETERMINED OBJECTIVES

Stats SA's strategy is informed by emerging priorities as set out in the Medium Term Strategic Framework (MTEF) development outcomes, and the National Development Plan (NDP). In summary, these policy documents aim to improve the social, cultural and economic welfare of all South Africans. The core of Stats SA's strategy is to lead and coordinate the provision of relevant, reliable and quality statistical information that enables users to understand the dynamics of the economy and society.

Stats SA produces statistical products under two broad programmes, namely Economic Statistics, and Population and Social Statistics. These programmes are supported by five programmes, namely (i) Methodology, Standards and Research, (ii) Statistical Support and Informatics, (iii) Survey Operations, (iv) Statistical Collection and Outreach, and (v) Administration. The official statistics produced by Stats SA are based on data collected through censuses, surveys and administrative data sources. All official statistics are characterised by common statistical principles and practices.

In order to implement the organisational strategy, five strategic outcomes were identified to drive strategic change in the statistics system. Activities and projects in the organisation are aligned to these strategic outcomes to achieve the objectives of the organisation. For easy reference, the relevant programme and subprogramme are included for each target.

The strategic outcomes are:

- a) An informed nation;
- b) Trusted statistics;
- c) Partners in statistics;
- d) A capable organisation; and
- e) Statistical leadership.

The following is a detailed performance report against the strategic plan and annual performance plan targets as outlined in the Strategic Plan and Work Programme, respectively.

<b>Life circumstances, service delivery and poverty</b>						
Programme 3: Population and Social Statistics (Subprogramme: Social Statistics)						
18.	To expand the statistical information base by increasing its depth, breadth and geographic spread	Expand and improve: <ul style="list-style-type: none"> <li>- Published report on development indicators later than scheduled due to relocation activities</li> <li>- Published thematic report on water and sanitation</li> <li>- Published report on service delivery based on CS 2016 data</li> </ul>	Report on development indicators by May 2017  Report on metro development indicators by May 2017  Thematic report on environment by March 2018	Published report on development indicators as scheduled  Published report on metro development indicators as scheduled  Compiled thematic report on the environment as scheduled		
Programme 3: Population and Social Statistics (Subprogramme: Poverty and Inequality Statistics)						
19.	To expand the statistical information base by increasing its depth, breadth and geographic spread	Publish periodic statistics on life circumstances, poverty and inequality  Expand and improve: <ul style="list-style-type: none"> <li>- Compiled methodologies for generation of poverty estimates for small areas using IES, LCS and Census data which included estimates at provincial level</li> <li>- Published release on the poverty profile and expenditure patterns of households in South Africa</li> </ul>	CPS modules developed and tested by June 2017  Report on poverty indicators using CS 2016 data by June 2017  Thematic report on subjective poverty by September 2017  Thematic report on men, women and children by March 2018	Developed and tested CPS modules as scheduled  Compiled report on poverty indicators as scheduled  The thematic report on subjective poverty was not compiled  Published thematic report on men, women and children as scheduled	Commenced with compilation of the report. It will be finalised in June 2018	Due to human resource constraints and the PAPI to CAPI transition project priority
Programme 2: Economic Statistics (Subprogramme: Government Financial Statistics)						
20.	To expand the statistical information base by increasing its depth, breadth and geographic spread	Publish annual non-financial statistics: Published annual release on the non-financial census of municipalities for 2014/15	Annual release on the non-financial census of municipalities by August 2017	Published annual release on the non-financial census of municipalities in May 2017	Published release earlier than scheduled	Due to improved collection, processing and analysis processes

Programme 3: Population and Social Statistics (Subprogramme: Demography)						
22.	To expand the statistical information base by increasing its depth, breadth and geographic spread	Publish mid-year population estimates				
		Published annual mid-year population estimates	Mid-year population estimates at national and provincial level by July 2017	Published mid-year population estimates at national and provincial level as scheduled		
		Expand and improve:				
		Compiled 2 reports on thematic analysis of demography based on CS 2016 and an additional Adolescent thematic report	Mid-year population estimates at district council and metro levels by November 2017	Published mid-year population estimates at district council and metro levels in January 2018	Published estimates later than scheduled	Due to data constraints
		Local municipality and household estimates by March 2018	Local municipality and household estimates were not compiled	Work will continue in 2018/19	Due to data constraints and boundary realignment issues	
		2 thematic demographic reports by March 2018	Compiled thematic reports on adolescent and grandparenthood as scheduled			
Vital statistics						
Programme 3: Population and Social Statistics (Subprogramme: Health and Vital Statistics)						
23.	To expand the statistical information base by increasing its depth, breadth and geographic spread	Publish annual vital statistics and statistics on international migration:				
		The report was not published due to the late receipt of data from the DHA	Annual release on documented immigrants including asylum seekers (2016) by July 2017	An annual release on documented immigrants was not compiled	The release for 2016 will be discontinued	Due to a change in the format of the permits reporting system by the DHA
		The report was published later than scheduled due to human resource constraints	Annual release on recorded live births (2016) by August 2017	Published annual release on recorded live births in September 2018	Published release later than scheduled	Due to data and system constraints
		The report was published later than scheduled due to human resource constraints	Annual release on mortality and causes of death (2016) by November 2017	Published annual release on mortality and causes of death in March 2018	Published release later than scheduled	Due to system constraints
		The report was not published due to human resource constraints and the late receipt of data from the DHA	Annual release on marriages and divorces (2016) by February 2018	An annual release on marriages and divorces was not compiled	The release will be published in May 2018	Due to system constraints

## 2.1.2 Develop new and innovative statistical products and services

### i) Integrative research and analysis

The following table outlines the achievements against set targets for integrative research and analysis:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Integrative research and analysis</b>						
Programme 4: Methodology Standards and Research (Subprogramme: Policy Research and Analysis)						
31.	To develop new and innovative statistical products and services	Conduct research and analysis on emerging socioeconomic issues (lower-level estimates):				
		Compiled 4 research reports on government's socioeconomic planning	Research reports on the government socioeconomic planning: application of estimates models/ development of estimates by March 2018	Compiled 3 research reports	Compiled an additional research report	Due to user needs
		Compiled 2 research reports on spatial analysis	2 research reports on spatial analysis by September 2017 and March 2018	Compiled 2 research reports as scheduled		
Programme 4: Methodology Standards and Research (Subprogramme: Methodology and Evaluation)						
31.	To develop new and innovative statistical products and services		Experimental Growth Accounting Framework refined by March 2018	Redefined Experimental Growth Accounting Framework as scheduled		
Programme 3: Population and Social Statistics (Subprogramme: Poverty and Inequality Statistics)						
32.	To develop new and innovative statistical products and services	Conduct research on the use of external data for the poverty and inequality statistics agenda:				
		Compiled report on the use of external data sources	Discussion document on household expenditure patterns, poverty and inequality using external data sources by March 2018	Compiled SA Poverty and Inequality report	The discussion document on household expenditure patterns was not compiled. The target will be discontinued	Due to human resource constraints

The following table outlines the achievements against set targets for integrative research and analysis:

Table 2: Annual Performance Plan targets

No.	Performance indicator	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Integrative research and analysis</b>						
Programme 4: Methodology Standards and Research (Subprogramme: Policy Research and Analysis)						
31.1	Research reports on government's socio-economic planning	4	2	3	1	Compiled additional research report as per user needs
31.2	Research reports on spatial analysis	2	2	2	0	
Programme 4: Methodology Standards and Research (Subprogramme: Methodology and Evaluation)						
31.3	Growth Accounting Framework refined		1	1	0	
Programme 3: Population and Social Statistics (Subprogramme: Poverty and Inequality Statistics)						
32.1	Document on poverty, expenditure and income	1	1	0	1	Compiled SA Poverty and Inequality report. A discussion document on household expenditure patterns was not compiled due to human resource constraints and will be discontinued

### 2.1.3 Develop new and innovative statistical products and services

#### i) Revolutionise data systems

The following table outlines the achievements against set targets for data revolution:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Data revolution</b>						
Programme 1: Administration (Subprogramme: Office of the SG)						
33.	To revolutionise data systems	Expand and improve by: A data revolution framework and strategy were not developed due to HR constraints				
			Data revolution framework and strategy by March 2018	Compiled data revolution research document on the application possibilities in measuring the demographic dividend	Work will continue in 2018/19	Due to human resource constraints

The following table outlines the achievements against set targets for data revolution:

Table 2: Annual Performance Plan targets

No.	Performance indicator	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Data revolution</b>						
Programme 1: Administration (Subprogramme: Office of the SG)						
33.1	Planning documents on data revolution initiatives	0	1	0	1	A data revolution framework and strategy was not compiled due to human resource constraints. Work will continue in 2018/19

## 2.2 Strategic outcome 2: Trusted statistics

### 2.2.1 Institutionalise quality management

The following table outlines the achievements against set targets to institutionalise quality management:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Quality management</b>						
Programme 4: Methodology, Standards and Research (Subprogramme: Methodology and Evaluation)						
34.	To institutionalise quality management	Institutionalising quality management:				
		Compiled proposal on a Quality Management System (QMS)	Practices and procedures on quality management system outlined by September 2017	Outlined practices and procedures for a quality management system in December 2017	Finalised practices and procedures later than scheduled	Due to stakeholder consultation
			Piloted series that have been assessed through SASQAF by November 2017	The piloting of series assessed through SASQAF was not completed	Development of QMS will be done in 2018/19 and work will continue in 2019/20	Due to the dependency on a QMS being in place
Programme 7: Survey Operations (Subprogramme: Survey Coordination, Monitoring and Evaluation)						
36.	To institutionalise quality management	Conduct independent process monitoring and evaluation of household-based surveys and censuses:				
		- Compiled report on monitoring of CS 2016	Report on monitoring QLFS by June 2017	Compiled report on monitoring of QLFS as scheduled		
		- Compiled report on evaluation of CS 2016	Report on monitoring Continuous Data Collection (CDC) by September 2017	Compiled monitoring report on CDC as scheduled		
		- Compiled report on monitoring and evaluation of SADHS	Report on GHS by December 2017	Compiled report on GHS as scheduled		
		- Compiled 2 CDC reports (QLFS and DTS)	Report on DTS by March 2018	Compiled report on DTS as scheduled		
			Report on QES monitoring and evaluation by March 2018	Compiled report on QES monitoring and evaluation as scheduled

34.2	Report on SASQAF assessment	0	1	0	1	The piloting of series assessed through SASQAF was not completed. It is dependent on a QMS being in place. Development of QMS will be done in 2018/19 and work will continue in 2019/20
Programme 7: Survey Operations (Subprogramme: Survey Coordination, Monitoring and Evaluation)						
36.1	Number of survey monitoring and evaluation reports	5	5	5	0	

## 2.2.1 Innovate the statistics value chain for better efficiency

The following table outlines the achievements against set targets for improved efficiency in survey operations:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Plan, design, build, collect, process and disseminate</b>						
Programme 4: Methodology, Standards and Research (Subprogramme: Methodology and Evaluation)						
37.	To innovate the statistics value chain	Provide methodological expertise and support:				
		Provided 100% support to stakeholders	90% methodological support provided to stakeholders by March 2018	Provided 100% methodological support to stakeholders	The target is an estimate	
		Improve support by:				
		- Completed weighting and estimation	Research report on methodological procedures in sampling by September 2017	Compiled report on methodological procedures in sampling in December 2017	Completed report later than scheduled	Due to stakeholder consultation
		- Implemented small-area estimation				
		- Implemented small-area estimation	Research report on analytical techniques by March 2018	Compiled research report on analytical techniques as scheduled		
		- Conducted comparative studies for validating SAE				
		- Assessed quality of master sample frame	Research report on pattern analysis for survey areas by March 2018	Compiled research report on pattern analysis for survey areas as scheduled		
		- Designed capacity building programme	Research report on surveying by March 2018	Compiled research report on surveying as scheduled		
		- Compiled seasonal adjustment methodological note for Land Transport Survey, Liquidations and insolvencies and Civil cases	Research report on statistical applications by March 2018	Compiled research report on statistical applications as scheduled		

Table 1: Strategic Plan targets (continued)

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Plan, design, build, collect, process and disseminate</b>						
Programme 7: Survey Operations (Subprogramme: Census and Community Survey)						
38.	To innovate the statistics value chain	Planning for Census 2021:				
		Data collection for CS 2016 was completed later than scheduled due to the late start of the survey	Research report on the dwelling frame by June 2017	Compiled research report on the dwelling frame in July 2017	Completed report later than scheduled	Due to the internal signing off processes
			Research report on the 'Reach-out' interview design test by September 2017	Compiled research report on 'Reach-out' interview design test in March 2018	Completed report later than scheduled	Due to human resource constraints
			Research report on field operation methodology test by March 2018	Compiled research report as scheduled		
Programme 7: Survey Operations (Subprogramme: Household Survey Operations)						
39.	To innovate the statistics value chain	Innovate:				
		- Developed data collection strategy	CAPI report compiled by March 2018	Compiled CAPI report as scheduled		
		- Compiled report on collaborating and partnering in design of digital data collection system	PAPI report compiled by September 2017	Compiled PAPI report in March 2018	The report was completed later than scheduled	Due to CAPI priority
		- Implemented quality assurance tool				
Programme 7: Survey Operations (Subprogramme: Corporate Data Processing)						
41.	To innovate the statistical value chain	Coordinate data processing of censuses, household-based surveys, civil registration and ad hoc surveys:				
		Processed 235 987 questionnaires	Approximately 250 000 questionnaires processed and edited by March 2018	Processed and edited 265 870 questionnaires (106%)	Processed and edited 15 870 additional questionnaires (6%)	The target is an estimate
		Processed 5 080 PSUs	Approximately 3 324 PSUs processed by March 2018	Processed 6 143 PSUs (184%)	Processed an additional 2 819 PSUs (84%)	Due to the updated master sample
		Processed 490 397 death notification forms	Approximately 500 000 death notification forms processed and edited by September 2017	Processed and edited 479 981 death notification forms (95%)	Processed and edited 20 019 less forms than scheduled (5%)	The target is an estimate

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Plan, design, build, collect, process and disseminate</b>						
Programme 7: Survey Operations (Subprogramme: Corporate Data Processing)						
41.	To innovate the statistical value chain	Improve by: Digital data collection for household surveys was postponed to 2018	Digital data collection for household surveys (phase 1) implemented by March 2018	Compiled report on implementation of Phase 1 of digital data collection as scheduled		
Programme 5: Statistical Support and Informatics (Subprogramme: Publication Services)						
42.	To innovate the statistical value chain	Compile multidisciplinary publications. Develop electronic datasets for statistical data:				
		Compiled 11 publications	11 publications (10 Mbalo Brief and 1 Stats in Brief) compiled by March 2018	Compiled 11 Mbalo Brief and 1 Stats in Brief editions as scheduled (100%)		
		Updated 206 series				
		Increase access:				
		Research on a data repository and alternative data delivery channels was not conducted due to changes in operating procedures and HR constraints	Proposal on the establishment of a data repository compiled by March 2018	The proposal was not compiled	Work will continue in 2018/19	Due to human resource constraints
			Data delivery channels implemented by March 2018	The implementation of data delivery channels was not done	The target will be discontinued	Due to human resource constraints
Programme 6: Statistical Collection and Outreach (Subprogramme: Stakeholder Relations and Marketing)						
43.	To innovate the statistical value chain	Disseminate Stats SA's statistical products:				
		Recorded 1 625 473 visitor sessions	1 000 000 visitor sessions to website per annum (target estimated)	Recorded 2 087 007 visitor sessions (208%)	1 087 007 more visitor sessions than scheduled	The target is an estimate
		Recorded 260 456 publication downloads	150 000 publications downloaded from website (target estimated)	Recorded 349 820 publication downloads (233%)	199 820 more downloads than scheduled	The target is an estimate

The following table outlines the achievements against set targets for improved efficiency in survey operations:

Table 2: Annual Performance Plan targets

Programme 6: Statistical Collection and Outreach (Subprogramme: Stakeholder Relations and Marketing)						
43.1	Percentage visitor sessions to the website	1 625 473	1 000 000	208% (2 087 007 sessions)	1 087 007	The target is an estimate
43.2	Percentage publications downloaded from website	260 456	150 000	233% (349 820 downloads)	199 820	The target is an estimate

### 2.2.3 Adopt international statistical standards and classifications

The following table outlines the achievements against set targets for the adoption of international statistical standards and classifications:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Statistical standards development</b>						
Programme 4: Methodology, Standards and Research (Subprogramme: Survey Standards)						
44.	To adopt and adapt international standards	Drive development and review of statistical standards:				
		<ul style="list-style-type: none"> <li>- Commenced with the profiling of the ICATUS standard. Work will continue in 2017/18</li> <li>- Commenced with stakeholder consultation on the Classification of Crime for Statistical Purposes (ICCS)</li> <li>- Reviewed standards on measuring and reporting response rate and master sample maintenance</li> <li>- Approved standards on data confidentiality, measuring and documenting sampling errors, statistical data collection and maintenance of the business frame</li> </ul>	<p>New standards developed by March 2018:</p> <ul style="list-style-type: none"> <li>- Planning a new survey</li> <li>- Survey design</li> <li>- Variable naming</li> <li>- Determining customer satisfaction</li> <li>- Maintenance of the dwelling frame</li> </ul> <p>Standard Operating Procedure (SOP) for preparing statistical releases</p>	<p>Developed the following new standards:</p> <ul style="list-style-type: none"> <li>- Planning a new survey</li> <li>- Survey design</li> <li>- Variable naming</li> <li>- Determining customer satisfaction</li> <li>- Maintenance of the dwelling frame</li> </ul>	Drafted Standard Operating Procedure (SOP) for preparing statistical releases	Since procedures are specific to different operations, standards will be developed by the relevant operations areas as required
			<p>Standards reviewed by March 2018:</p> <ul style="list-style-type: none"> <li>- Data dissemination,</li> <li>- Data imputation,</li> <li>- Questionnaire development,</li> <li>- Sample maintenance for economic statistics</li> </ul>	<p>Reviewed the following standards:</p> <ul style="list-style-type: none"> <li>- Data dissemination</li> <li>- Data imputation</li> <li>- Questionnaire development</li> <li>- Sample maintenance for economic statistics</li> </ul>		
			<p>Standards adopted/ adapted by March 2018:</p> <ul style="list-style-type: none"> <li>- Classification by broad economic categories (BEC)</li> <li>- Standard international classification of tourism activities (SICTA)</li> </ul>	<p>Research was conducted on BEC and SICTA</p>	The research concluded that Stats SA did not require the standards. The target will be discontinued	Due to the conclusion of the research conducted
			<p>Domain-specific data revision policy by March 2018</p>	<p>The domain-specific data revision policy was not compiled</p>	<p>Work will continue in 2018/19</p>	<p>Due to its complexity</p>

The following table outlines the achievements against set targets for the adoption of international statistical standards and classifications:

Table 2: Annual Performance Plan targets

No.	Performance indicator	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Statistical standards development</b>						
Programme 4: Methodology, Standards and Research (Subprogramme: Survey Standards)						
44.1	Number of standards developed	6	6	5	1	Drafted SOPs for preparing statistical releases. Since procedures are specific to different operations, standards will be developed by the relevant operations areas as required
44.2	Number of standards reviewed	2	4	4		
44.3	Number of standards adopted/adapted	0	2	0	2	Standards on BEC and SICTA were not adopted. Research was conducted which concluded that the standards were not required by Stats SA. The target will be discontinued
44.4	Number of survey standards policies developed		1	0	1	The domain-specific data revision policy was not compiled due to its complexity. Work will continue in 2018/19

## 2.2.4 Increase stakeholder focus, communication and marketing

The following table outlines the achievements against set targets for increasing stakeholder focus, communication and marketing:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Integrated communication and stakeholder management</b>						
Programme 6: Statistical Collection and Outreach (Subprogramme: Corporate Communications)						
45.	Increase stakeholder focus, marketing and communication	Position and enhance the public image and credibility of the organisation:				
		Compiled 53 editions of Pulse	Pulse editions compiled (48 per annum) by March 2018	Compiled 48 editions as scheduled		
		Compiled 2 reports on media perceptions	Quarterly dash-board of media perception compiled	Compiled quarterly dashboard of media perception	Compiled 2 <sup>nd</sup> quarterly dashboard later than scheduled	Due to human resource constraints
		Improve internal and external communication:				
		- Developed communication product	A communication training programme to increase the use of data visuals by employees developed by March 2018	Developed communication training programme as scheduled		
		- Rolled out CS 2016 communication campaign				
		- Rolled out new building relocation communication plan	Relationships built and community media trained by March 2018	Compiled report on media training as scheduled		
		- Compiled report on new communication channels developed	Communications products developed for municipalities and schools by March 2018	Communications products for municipalities and schools were not developed	Work will continue in 2018/19	Due to human resource constraints and reprioritisation
		- The establishment of a knowledge management environment was discontinued due to HR constraints	New approaches and channels for dissemination of other releases/ products developed by March 2018	New approaches and channels for dissemination of other releases/ products were not developed	Research was conducted which indicates that Stats SA is on par with statistical organisations in terms of existing dissemination channels. The target will be discontinued	Due to outcome of research conducted

Table 1: Strategic Plan targets (concluded)

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Integrated communication and stakeholder management</b>						
Programme 6: Statistical Collection and Outreach (Subprogramme: Stakeholder Relations and Marketing)						
46.	Increase stakeholder focus, marketing and communication	Provide stakeholder management support services:				
		95,6% of telephonic queries were handled within 15 minutes	95% of simple queries handled within 15 minutes	Handled 96,5% of simple queries handled within 15 minutes	Handled 1,5% more than scheduled	The target is an estimate
		96,6% enquiries on normal requests were handled within 24 hours	90% of normal queries handled within 24 hours	Handled 96,8% of normal queries handled within 24 hours	Handled 6,8% more than scheduled	The target is an estimate
		98% enquiries on special requests were handled within 5 days	90% of complex queries handled within 5 days	Handled 93,5% of complex queries handled within 5 days	Handled 3,5% more than scheduled	The target is an estimate
		Compiled user satisfaction report	User satisfaction report compiled by July 2017	Compiled user satisfaction report in March 2018	Compiled report later than scheduled	Due to error in target date in WP
		Improve:				
		<ul style="list-style-type: none"> <li>- Monitoring usage of the CRM system has been discontinued due to HR constraints</li> <li>- Institutionalising integrated stakeholder management has been discontinued due to HR constraints</li> </ul>	Effectiveness of CRM system assessed by March 2018	The CRM system was not assessed	The target will be discontinued	The system is fully functional and an effectiveness assessment was not necessary in 2017/18

The following table outlines the achievements against set targets for increasing stakeholder focus, communication and marketing:

Table 2: Annual Performance Plan targets

No.	Performance indicator	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Integrated communication and stakeholder management</b>						
Programme 6: Statistical Collection and Outreach (Subprogramme: Corporate Communications)						
45.1	Percentage internal communication products compiled	53 (110%)	48 (100%)	48 (100%)	0	
45.2	Dashboard of media perception compiled	2	4	4	0	Compiled 2 <sup>nd</sup> quarterly dashboard later than scheduled due to human resource constraints
45.3	Strategic interventions to improve internal and external communication	5	4	2	2	<ul style="list-style-type: none"> <li>- Communications products for municipalities and schools were not developed due to human resource constraints and reprioritisation. Work will continue in 2018/19</li> <li>- New approaches and channels for dissemination of other releases/products were not developed due to the outcome of the research conducted. The target will be discontinued</li> </ul>
Programme 6: Statistical Collection and Outreach (Subprogramme: Stakeholder Relations and Marketing)						
46.1	Percentage of telephonic queries handled within 15 minutes	95,6%	95%	96,0%	1,5%	The target is an estimate
46.2	Percentage of telephonic queries handled within 24 hours	96,6%	90%	96,8%	6,8%	The target is an estimate
46.3	Percentage of telephonic queries handled within 5 days	98,0%	90%	93,5%	3,5%	The target is an estimate
46.4	User Satisfaction Survey (UIS) conducted	1	1	1	0	Compiled user satisfaction report later than scheduled
46.5	Strategic intervention to improve stakeholder management services	0	1	0	1	An effectiveness assessment was not necessary in 2017/18. The target will be discontinued

## 2.2.5 Designate statistics as official

The following table outlines the achievements against set targets for designating statistics as official:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Designate statistics as official</b>						
Programme 1: Administration (Subprogramme: SANSS)						
47.	Designate statistics as official	Assessment and certification of statistics in the SANSS:				
		Produced 1 quality statement	2 SASQAF quality statements by March 2018	2 SASQAF quality statements were not compiled	SASQAF quality statements were not completed	Due to human resource constraints. Work will continue in 2018/19
		Enhance trust in statistics:				
		- Published guidelines and handbook - Compiled report on implementing a SASQAF roll-out strategy and plan	SASQAF reviewed by March 2018	Reviewed SASQAF as scheduled		

The following table outlines the achievements against set targets for designating statistics as official:

Table 2: Annual Performance Plan targets

No.	Performance indicator	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Designate statistics as official</b>						
Programme 1: Administration (Subprogramme: SANSS)						
47.1	SASQAF quality statements produced	1	2	0	2	SASQAF quality statements were not compiled due human resource constraints. Work will continue in 2018/19
47.2	Strategic initiatives to improve independent quality assessments	2	1	1	0	

## 2.3 Strategic outcome 3: Partners in statistics

### 2.3.1 Strengthen collaboration to build statistical sampling frames

The following table outlines the achievements against set targets for strengthening collaboration to build statistical sampling frames:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Geospatial frame</b>						
Programme 5: Statistical Support and Informatics (Subprogramme: Geographic Frames and Geographic Services)						
48.	To strengthen collaboration to build statistical sampling frames	Provide an updated spatial information frame for the collection of household statistics:				
		Demarcated 2 provinces (Free State and Northern Cape)	4 provinces demarcated by March 2018	Demarcated 4 provinces as scheduled		
		Improve the SIF:				
		<ul style="list-style-type: none"> <li>- Published dwelling frame at metro, cities and regional service centres levels</li> <li>- Updated and maintained the EA layer in the Free State and Northern Cape</li> <li>- Geospatial research reports have been discontinued due to skills constraints</li> <li>- The establishment of a collaborative SIF maintenance platform and a geostatistical analytics platform was delayed due to SITA processes</li> </ul>	Dataset of a migrated master sample to the SIF by March 2018	Migrated master sample to the SIF as scheduled		

Table 1: Strategic Plan targets (concluded)

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Business register</b>						
Programme 4: Methodology, Standards and Research (Subprogramme: Business Register)						
50.	To strengthen collaboration to build statistical sampling frames	Provide an updated spatial information frame for the collection of economic statistics:				
		- Completed 99% of large business surveys	Preliminary financial sampling frame by November 2017	Compiled preliminary financial sampling frame as scheduled		
		- Compiled 4 reports on performance and quality indicators for the business register	Final financial sampling frame by March 2018	Compiled final financial sampling frame as scheduled		
		- Compiled 2 financial sampling frames	Reports on business register statistics by June and December 2017	Compiled reports on business register statistics as scheduled		
		Improve the business register:				
		- Compiled report on business rules	Implementation of the units model commenced by March 2018	Commenced with implementation of the units model as scheduled		
		- Compiled report on quality management framework	Revised business rules finalised by March 2018	Finalised revised business rules as scheduled		
		- Developed business case for units model	Implementation of the reviewed BSF quality management framework commenced by March 2018	Commenced with implementation of the reviewed BSF quality management framework as scheduled		
		- Compiled reports on register-based statistics				
		- Compiled research report on improving the functionality of the BSF				

The following table outlines the achievements against set targets for strengthening collaboration to build statistical sampling frames:

Table 2: Annual Performance Plan targets

No.	Performance indicator	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Geospatial frame</b>						
Programme 5: Statistical Support and Informatics (Subprogramme: Geographic Frames and Geographic Services)						
48.1	Number of provinces demarcated	2	4	4	0	
48.2	Strategic initiatives to improve the SIF	2	1	1	0	
<b>Business Register</b>						
Programme 4: Methodology, Standards and Research (Subprogramme: Business Register)						
50.1	Number of financial sampling frames compiled	2	2	2	0	
50.2	Number of reports on business register statistics	2	2	2	0	
50.3	Strategic initiatives to improve the business register	6	3	3	0	

### 2.3.2 Lead the coordination of the statistical system in South Africa

The following table outlines the achievements against set targets for leading the coordination of the statistical system in South Africa:

Table 1: Strategic Plan targets

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Economic and social statistics subsystems</b>						
Programme 1: Administration (Subprogramme: SANSS)						
51.	Lead the coordination of the statistical system in SA	Coordinate the production of statistics in the economic and social statistics subsystems:				
		Improve coordination:				
		- The development of a National Strategy for the Development of Statistics (NSDS) has been postponed to 2018/19 due to legislative changes to the Statistics Act which will impact on the strategy	Developing a National Strategy for the Development of Statistics (NSDS) by March 2018	The NSDS was not developed	Work will continue in 2018/19	The target is dependent on legislative changes to the Statistics Act
		- Implemented a clearance protocol for SAPS	Clearance protocol applied to 2 data sources by March 2018	Applied clearance protocols to surveys from the Department of Science and Technology and the SA Police Service as scheduled		
		- Applied SASQAF Lite in the SA Police Service and the Department of Science and Technology	SASQAF Lite applied to 2 data sources by March 2018	Applied SASQAF Lite to surveys from the Department of Science and Technology and the SA Police Service as scheduled		
		- The development of economic and social subsystems strategies and plans is dependent on the finalisation of the NSDS	Consolidated report on social subsystem activities by March 2018	Compiled consolidated report on social subsystem activities as scheduled		
			Consolidated report on economic subsystem activities by March 2018	Compiled consolidated report on economic subsystem activities as scheduled		

Table 1: Strategic Plan targets (continued)

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
Information management in the SANSS						
Programme 1: Administration (Subprogramme: SANSS)						
52.	Lead the coordination of the statistical system in SA	Facilitate information sharing amongst SANSS partners:				
		Signed agreements with SAPS and the DST	2 agreements on data sharing by March 2018	Agreements on data sharing were not signed (by both parties)	Agreements for the Departments of Social Development and Telecomm and Postal Services were compiled and signed by Stats SA	Signing by both parties is dependent on cooperation from the two departments
		Improve information sharing:				
		- Developed data repository - Compiled report on expanding the use of the e-data transfer tool - Compiled report on expanding the use of the dissemination tool	Data repository piloted by March 2018  Outreach to SANSS partner to expand use of e-data transfer tool by March 2018  The use of dissemination tools expanded amongst SANSS partner by March 2018	Piloted data repository as scheduled  Expanded the use of the e-data transfer tool as scheduled  Expanded the use of dissemination tools amongst SANSS partners as scheduled		
Statistical reporting						
Programme 1: Administration (Subprogramme: SANSS)						
53.	Lead the coordination of the statistical system in SA	Facilitate production of statistics according to national, regional and international requirements:				
		Compiled MDG country and 8 MDG goal reports  Developed protocols for the development, compliance and reporting of indicators	Report on SDG indicators by March 2018  Protocols for the development, compliance and reporting of indicators implemented by March 2018	Compiled report on SDG indicators in September 2017  Implemented protocols for the development, compliance and reporting of indicators through the SDG reporting process	Compiled report earlier than scheduled	For presentation to the UN General Assembly

Table 1: Strategic Plan targets (concluded)

No.	Strategic objective	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Statistical support and advice</b>						
Programme 1: Administration (Subprogramme: SANSS)						
54.	Lead the coordination of the statistical system in SA	Provide technical support and conduct diagnostic assessments of data within the SANSS:				
		Compiled 2 reports on statistical support provided	Technical support in statistical production provided to 8 organs of state by March 2018	Provided technical support to 8 organs of state as scheduled		
		Improve technical support to SANSS partners:				
		Compiled report on diagnostic assessment and developed a handbook on diagnostic assessments	2 diagnostic assessment reports compiled by March 2018	Compiled 2 diagnostic assessment reports as scheduled		
			Specifications for readiness assessment process developed by 2018	Developed specifications for readiness assessment process as scheduled		

The following table outlines the achievements against set targets for leading the coordination of the statistical system in South Africa:

Table 2: Annual Performance Plan targets

No.	Performance indicator	Actual achievement 2016/17	Planned target 2017/18	Actual achievement 2017/18	Deviation from planned target to actual achievement for 2017/18	Comment on deviations
<b>Economic and social statistics subsystems</b>						
Programme 1: Administration (Subprogramme: SANSS)						
51.1	Documents on coordination of economic and social statistics subsystems	2	5	4	1	The NSDS was not developed. The target is dependent on legislative changes to the Statistics Act
<b>Information management in the SANSS</b>						
Programme 1: Administration (Subprogramme: SANSS)						
52.1	Number of agreements with organs of state on data sharing	2	2	0	2	Agreements for the DST and DTSPS were compiled and signed by Stats SA. Signing by both parties is dependent on cooperation from the two departments
52.2	Strategic initiatives to improve information management in the SANSS	3	3	3	0	
<b>Statistical reporting</b>
