Explanatory notes

Introduction	1	Statistics South Africa (Stats SA) collects administrative information on liquidations from the Companies and Intellectual Property Commission (CIPC) and the Department of Trade, Industry and Competition (DTIC).
	2	This statistical release reflects voluntary and compulsory liquidations of companies and close corporations.
Purpose of the survey	3	The aggregated data in this release are used by both the private and public sectors to measure economic performance and serve as an important indicator of the scope of unpaid debt in South Africa.
Scope of the survey	4	This survey covers the total number of companies and close corporations which were liquidated.
Symbols and abbreviations	5	Stats SA – Statistics South Africa CIPC – Companies and Intellectual Property Commission DTIC – Department of Trade, Industry and Competition C – Compulsory V – Voluntary * Revised figures
Seasonal adjustment	6	Seasonally adjusted estimates are generated each month using the X-12-ARIMA Seasonal Adjustment Program developed by the United States Census Bureau. Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be recognised more clearly. Seasonal adjustment does not aim to remove irregular or non-seasonal influences which may be present in any particular month.
	7	Influences that are volatile or unsystematic can still make it difficult to interpret the movement of the series even after adjustment for seasonal variations. This means the month-to-month movements of seasonally adjusted estimates may not be reliable indicators of trend behaviour. The X-12-ARIMA procedure for liquidations is described in more detail on the Stats SA website: click to download seasonal adjustment P0043 April 2018 .
Trend cycle	8	The trend is the long-term pattern or movement of a time series. The X-12-ARIMA Seasonal Adjustment Program is used for smoothing seasonally adjusted estimates to estimate the underlying trend cycle.
Revised figures	9	Revised figures are mainly due to late submission of data to the CIPC or DTIC, or the CIPC or DTIC reporting revisions or corrections to their figures.

Glossary

Compulsory liquidation	A compulsory liquidation takes place when the affairs of a company or close corporation are wound up by order of the court.
Liquidation	Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court.
Voluntary liquidation	A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs.

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's 12 official languages. Since the releases are used extensively locally and by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
