KEY FINDINGS

The headline CPI (for all urban areas) annual inflation rate in January 2014 was 5,8%. This rate was 0,4 of a percentage point higher than the corresponding annual rate of 5,4% in December 2013. On average, prices increased by 0,7% between December 2013 and January 2014.

The **food and non-alcoholic beverages** index increased by 1,6% between December 2013 and January 2014. The annual rate increased to 4,3% in January 2014 from 3,5% in December 2013. The following components in the food and non-alcoholic beverages index increased: vegetables (4,0%), other food (2,4%), fish (2,3%), meat (2,0%), cold beverages (2,0%), bread and cereals (1,0%), sugar, sweets and desserts (1,0%), fruit (0,9%), hot beverages (0,5%) and milk, eggs and cheese (0,4%). The following component decreased: oils and fats (-0,4%).

The **transport** index increased by 1,2% between December 2013 and January 2014, mainly due to a 38c/litre increase in the price of petrol. The annual rate increased to 7,8% in January 2014 from 6,3% in December 2013.

The **miscellaneous goods and services** index increased by 0,5% between December 2013 and January 2014. The annual rate was unchanged at 7,0% in January 2014.

The provinces with an annual inflation rate lower than or equal to headline inflation were Western Cape (5,7%), Free State (5,7%), Eastern Cape (5,5%), Northern Cape (5,3%), Mpumalanga (5,2%) and North West (5,1%). The provinces with an annual inflation rate higher than headline inflation were Limpopo (6,4%), KwaZulu-Natal (5,9%) and Gauteng (5,9%).

NOTES

CPI for February 2014

As indicated in the planned schedule of price surveys, gym fees are surveyed in January, April, July and October and building and household content insurance are surveyed in January and July. It has come to Stats SA's attention that price changes in these items will be introduced during February 2014. Additional surveys for these items will be conducted in February 2014 to capture these changes.

GLOSSARY

A complete set of definitions is available in the methods and sources document on the Stats SA website

<http://www.statssa.gov.za>

Annual inflation rate	The annual inflation rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.
Annual percentage change	The annual percentage change is the change in the index of the relevant month of the current year compared with the index of the same month in the previous year expressed as a percentage.
Average annual inflation rate	The average annual inflation rate is the change in the average CPI for all items of one year compared with the average CPI for all items of the previous year expressed as a percentage.
Average annual percentage change	The average annual percentage change is the change in the average index of one year compared with the average index of the previous year expressed as a percentage.
CPI for administered prices	An administered price is defined as the price of a product which is set consciously by an individual producer or group of producers and/or any price which can be determined or influenced by government, either directly or through a government agency/institution without reference to market forces. Products and services included are assessment rates, sanitary fees, refuse removal, water, electricity, paraffin, petrol, public transport – trains, motor licences, motor registration, telephone fees, postage, cell calls, television licence, school fees, university/technicons/colleges and university boarding fees.
CPI for regulated prices	Regulated prices are those administered prices that are monitored and controlled by government policy. To this end, price regulation does not necessarily imply the presence of an economic regulator, but the restriction on the extent to which prices may vary, depending on government's policy objective. Products and services included are water, electricity, paraffin, petrol, telephone fees, postage and cell calls.
CPI per expenditure quintile	quintile 1 - up to R 21 399; quintile 2 - R 21 400 up to R 35 750; quintile 3 - R 35 751 up to R 61 624; quintile 4 - R 61 625 up to R 142 083; and quintile 5 - R 142 084 and more.
Inflation rate	The inflation rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.
Monthly percentage change	The monthly percentage change is the change in the CPI of the relevant month compared with the CPI of the previous month expressed as a percentage.

FOR MORE INFORMATION

Stats SA publishes approximately 300 different releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data: and also that they specify that the relevant application and analysis (where applicable) result from their own processing of data.

Advance release calendar

An advance release calendar is disseminated on <http://www.statssa.gov.za>

Forthcoming issues

Issue	Publication date
