## Key findings

### Table 1: Contract price adjustment provisions (CPAP) work group indices

Noteworthy month-on-month changes in April 2026 were as follows:

Work group 125 – metal roofing (aluminium): the index increased by 13,0%. There was a change of 14,3% in the SEIFSA index for aluminium products 99.7 EC grade rod (accounting for 90,0% of this group).

Work group 120 – waterproofing: the index increased by 9,0%. There was a change of 14,4% in the PPI for bituminous mixtures (accounting for 65,0% of this group).

Work group 190 – preliminaries: the index increased by 5,3%. There was a change of 39,4% in the PPI for diesel (accounting for 15,0% of this group).

Work group 124 – metal roofing (steel): the index increased by 5,1%. There was a change of 6,0% in the SEIFSA index for galvanised sheets (accounting for 85,0% of this group).

Work group 173 – steel water pipe installations: the index decreased by 0,3%. There was a change of -1,6% in the PPI for steel pipes (accounting for 40,0% of this group).

Work group 116 – brick and blockwork: the index decreased by 0,7%. There was a change of -3,0% in the PPI for clay bricks (accounting for 45,0% of this group).

### Tables 2 and 3: Construction input price index (CIPI)

The annual change in the total construction index was 4,5% in April 2026. The index increased by 0,5% month-on-month.

The following indices recorded noteworthy month-on-month changes:

- bituminous mixtures (14,4%);
- pre-mix asphalt (6,3%);
- prefabricated concrete and cement (5,1%);
- ceiling boards (3,2%);
- electrical cable (2,3%);
- construction tyres (2,0%);
- construction stone and sand (-0,8%); and
- construction structural and reinforcing steel (-1,4%).

### Table 4: Mining and construction plant and equipment price indices

The annual change in the plant and equipment index was -1,5% in April 2026. The index decreased by 0,2% month-on-month.

### Table 5: Mechanical and electrical engineering input price indices

The annual change in the mechanical engineering index was -1,9% in April 2026. The index increased by 0,2% month-on-month.

The annual change in the electrical engineering index was 11,5% in April 2026. The index increased by 2,7% month-on-month.

**Table 6: Civil engineering material price indices**

The annual change in the total index for civil engineering material was 5,6% in April 2026. The index increased by 0,2% month-on-month.

## Glossary

<b>Construction Input Price Indices (CIPI)</b>	The index reflects material purchases in the construction industry.
<b>Contract Price Adjustment Provisions (CPAP)</b>	The CPAP work group indices are used for making adjustments based on cost fluctuations in labour, plant and materials.
<b>Contract Price Adjustment Provisions Steering Committee</b>	The committee is the oversight structure for the Construction Price Adjustment Provisions published by Statistics South Africa (Stats SA) and includes representatives from the following industry associations and organisations: The Association of South African Quantity Surveyors (ASAQS), Electrical Contractors' Association (SA), Master Builders South Africa, South African Institute of Architects, Department of Public Works and Stats SA.
<b>CPAP manuals</b>	The updated CPAP manuals "CPAP Application Manual" and "CPAP Work Groups Composition and Weighting of Sub-Indices" are obtainable from ASAQS' website: <a href="http://www.asaqs.co.za">www.asaqs.co.za</a> – search for CPAP, or by phoning (012) 406 3304.
<b>Respondent response rate</b>	The respondent response rate for April 2026 was 94,7%. The rate was calculated using the total number of companies where prices were collected as a percentage of the total sample.
<b>Sources for CPAP</b>	The CPAP work group indices are derived from changes in the cost structures prevailing in 38 different work activities of the building industry. They are published by Stats SA monthly. The indices reported on in this publication are mainly based on a combination of PPI, SEIFSA and CPI indices for the particular month.
<b>Tax</b>	Value-added tax (VAT) is not included in these indices.
<b>Weights</b>	Weights are updated according to the availability of new information, as follows: <ul style="list-style-type: none"> <li>• Tables 1 and 6 are updated periodically in consultation with industry expert committees.</li> <li>• Tables 2, 3 and 5 are partially updated annually using Stats SA's supply and use tables, with effect from the January statistical release each year.</li> <li>• Table 4 is updated periodically using Stats SA's large sample survey for the manufacturing industry and SARS trade data.</li> <li>• Tables 2, 3, 4 and 5 are updated on a detailed level, using Stats SA's large sample surveys for the construction and manufacturing industries, approximately every three to four years.</li> </ul>
<b>Revised figures</b>	The SEIFSA data is continuously updated and therefore Stats SA allows for revisions of the CPAP work group indices. Revisions will be promptly indicated in relevant tables to maintain transparency and accuracy.

## Abbreviations

<b>CIPI</b>	Construction Input Price Indices
<b>CPAP</b>	Contract Price Adjustment Provisions
<b>CPI</b>	Consumer Price Index
<b>PPI</b>	Producer Price Index
<b>SAFCEC</b>	South African Forum of Civil Engineering Contractors
<b>SAICE</b>	South African Institution of Civil Engineering
<b>SARS</b>	South African Revenue Service
<b>SEIFSA</b>	Steel and Engineering Industries Federation of Southern Africa
<b>r</b>	Revised figures

## General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's 12 official languages. Since the releases are used extensively locally and by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

## Advance release calendar

An advance release calendar is disseminated on [www.statssa.gov.za](http://www.statssa.gov.za).

## Forthcoming issues

Issue	Expected release date
May 2026	25 June 2026
June 2026	30 July 2026
July 2026	27 August 2026
