

Retail trade in motor vehicles and accessories

February 2002

Co-operation between Statistics South Africa (Stats SA), the citizens of the country, the private sector and government institutions is essential for a successful statistical system. Without continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

Embargo: 09:30
Date: 25 April 2002

Stats SA publishes approximately three hundred different releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally, but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Key figures regarding motor trading income for the month ended February 2002

Actual estimates	February 2002	% change between February 2001 and February 2002	% change between December 2000 to February 2001 and December 2001 to February 2002	% change between January 2001 to February 2001 and January 2002 to February 2002
R million				
Income from the sales of new vehicles	3 638	10,6	18,0	12,1
Income from the sales of used vehicles	2 255	30,2	29,2	30,3
Workshop income	1 007	10,4	10,5	13,7
Other trading income	1 912	7,2	6,5	7,0
Total motor trading income	8 812	14,2	16,9	15,3

Seasonally adjusted estimates	February 2002	% change between January 2002 and February 2002	% change between September 2001 to November 2001 and December 2001 to February 2002
R million			
Income from the sales of new vehicles	3 506	-1,7	12,8
Income from the sales of used vehicles	2 241	-2,2	12,5
Workshop income	956	-7,3	5,1
Other trading income	1 934	0,2	4,5
Total motor trading income	8 637	-2,1	9,9

Key findings regarding motor trading income for the month ended February 2002

Total motor trading income increases

The seasonally adjusted total motor trading income of retailers in motor vehicles and accessories for the three months ended February 2002 increased by 9,9% compared with the previous three months. However, the seasonally adjusted total motor trading income for February 2002 decreased by 2,1% compared with January 2002.

The increase of 9,9% in the seasonally adjusted total motor trading income for the three months ended February 2002 compared with the previous three months was due to increases in the seasonally adjusted income from the sales of new vehicles (+12,8%), the income from the sales of used vehicles (+12,5%), workshop income (+5,1%) and 'other' trading income (+4,5%).

Key findings regarding motor trading income for the first two months of 2002

Total motor trading income increases

The total motor trading income of retailers in motor vehicles and accessories for the first two months of 2002 increased by 15,3% compared with the first two months of 2001. This increase of 15,3% was due to increases in the income from the sales of used vehicles (+30,3%), workshop income (+13,7%), the income from the sales of new vehicles (+12,1%), and 'other' trading income (+7,0%).

Figure 1 - Total motor trading income, excluding Value Added Tax**Key figures regarding the total number of vehicles sold for the month ended February 2002****Actual estimates**

	February 2002	% change between January 2002 and February 2002	% change between February 2001 and February 2002	% change between December 2000 to February 2001 and December 2001 to February 2002
Number of new vehicles sold	27 706	-7,3	2,4	3,0
Number of used vehicles sold	28 381	-5,2	5,4	6,4
Total number of new and used vehicles sold	56 087	-1,6	-1,3	4,6

Key findings regarding the total number of vehicles sold for the month ended February 2002**Total number of vehicles sold increases**

The total number of new and used vehicles sold during the three months ended February 2002 increased by 4,6% compared with the three months ended February 2001. However, the total number of new and used vehicles sold during February 2002 decreased by 1,6% compared with January 2002.

The increase of 4,6% in the total number of new and used vehicles sold during the three months ended February 2002 compared with the three months ended February 2001 can be attributed to increases of 6,4% and 3,0% reflected in the number of used vehicles sold and the number of new vehicles sold, respectively.

Key findings regarding the total number of vehicles sold for the first two months of 2002

Total number of vehicles sold increases

The total number of vehicles sold during the first two months of 2002 increased by 2,2% compared with the first two months of 2001.

The increase of 2,2% in the total number of vehicles sold was due to an increase of 8,5% in the number of used vehicles sold. However, this increase was partially counteracted by a decrease of 3,7% in the total number of new vehicles sold.

Figure 2 – Total number of vehicles sold according to type of vehicle sold the during first two months of 2002 compared with first two months of 2001

Forthcoming issues	Issue	Expected release date
	March 2002	23 May 2002
	April 2002	20 June 2002
	May 2002	25 July 2002
	June 2002	22 August 2002
	July 2002	26 September 2002
	August 2002	24 October 2002
 Purpose of the survey	<p>The retail trade in motor vehicles and accessories survey is a monthly survey covering a sample of private enterprises (firms) operating in the motor trade industry in South Africa. The results of the survey are used to compile estimates of the Gross Domestic Product (GDP) and its components, which are used to develop and monitor government policy. Furthermore, these statistics are also used by the private sector in analyses of comparative business and industry performance.</p>	
 Re-engineered retail trade in motor vehicles and accessories	<p>Prior to January 2000, Stats SA collected and published information on retail trade in motor vehicles and accessories, including Value Added Tax (VAT). Due to users' needs, specifically compilers of National Accounts, Stats SA has overhauled and re-designed the retail trade in motor vehicles and accessories questionnaire. As from January 2000, Stats SA collects information regarding retail trade in motor vehicles and accessories, excluding VAT. In order to provide users with a continuous time series, Stats SA calculated retail trade in motor vehicles and accessories, excluding VAT, for the period January 1992 to December 1999 which was published in the statistical release P6343.3 (entitled Retail trade in motor vehicles and accessories, January 1992 to December 1999) on 18 May 2000.</p>	
 New sample	<p>According to international best practice and in order to train the relevant respondents in using the new questionnaire, to validate the information received and to avoid a break in the time series published in this statistical release, Stats SA decided to introduce the new questionnaire as the first step in the re-engineering process. Stats SA will in due course, as the second step, introduce a new sample.</p> <p>Currently Stats SA is busy re-engineering the register of businesses which serves as the sampling frame, in collaboration with the South African Revenue Service and the Departments of Trade and Industry and Labour. The process will take some time, since there are hundreds of thousands of businesses, many of whom are, in any given period, changing ownership, closing, or being registered. As soon as this improvement in the listing and classification of businesses has been implemented, Stats SA will draw a new sample.</p>	

Changes in the numbering of tables

It should be noted that the numbering of tables changed as from July 2000 as indicated in table A.

Table A - Title of table according to new and old numbers

New number (since July 2000)	Title of table	Old number (prior to May 2000)

Additional information

Explanatory notes

- | | |
|--------------------------------------|--|
| Introduction | <p>1 This publication contains results of the monthly survey of retail trade in motor vehicles and accessories. The survey is designed to obtain information regarding -</p> <ul style="list-style-type: none"> • income from the sales of new vehicles; • income from the sales of used vehicles; • workshop income; • other trading income; • cash and credit sale transactions of vehicles; and • the number of new and used vehicles sold. <p>2 The information in this publication includes actual and seasonally adjusted values of motor trade sales. Prior to January 2000, Stats SA collected and published information on motor trade sales including Value Added Tax (VAT). As from January 2000, Stats SA collects information regarding retail trade in motor vehicles and accessories excluding VAT.</p> |
| Scope of the survey | <p>3 The survey collects information from a sample of enterprises in South Africa that are predominantly involved in the retail trade in motor vehicles and accessories. These enterprises include -</p> <ul style="list-style-type: none"> • motor vehicle dealers, filling stations and workshops; • motor cycle dealers; • spares and accessories dealers; • retail tyre dealers; • automotive electricians; • radiator repairers; • panel beaters and spray painters; • other specialised motor repair services; and • other motor trade. |
| Classification | <p>4 The 1993 edition of the Standard Industrial Classification of all Economic Activities (SIC), Fifth edition, Report No. 09-90-02, was used to classify the statistical units in the survey. The SIC is based on the 1990 International Standard Industrial Classification for all Economic Activities (ISIC) with suitable adaptations for local conditions. Statistics in this publication are presented at SIC subgroup (5 digit) level. Each statistical unit is classified to an industry that reflects the predominant activity of the enterprise.</p> |
| Statistical unit | <p>5 The statistical unit for collection of information is an enterprise. An enterprise is a legal entity consisting of one or more establishments (branches), including the head office, but excluding holding or subsidiary companies. Information is collected from enterprises that are predominantly involved in the retail trade in motor vehicles and accessories.</p> |
| Survey methodology and design | <p>6 All statistical units are stratified in the motor trade industry according to type of dealer and measure of size, where measure of size is the total motor trading income of the enterprise. All large enterprises are completely enumerated. For medium size enterprises and small enterprises, samples are drawn by systematically selecting enterprises with equal probability.</p> <p>7 The data are collected by mail each month from a sample of approximately 420 motor trade enterprises from a population of approximately 14 000 motor trade enterprises. Questionnaires have to be returned to Stats SA within 10 days after the end of the reference month. Fax and telephone reminders are used to follow up non-respondents.</p> |

Seasonal adjustment	8	Seasonally adjusted estimates of retail trade in motor vehicles and accessories are generated each month, using the X-11 Seasonal Adjustment Program developed by US Bureau of the Census Economic Research and Analyses Division, 1968.												
	9	Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be more clearly recognised. Seasonal adjustment does not aim to remove irregular or non-seasonal influences which may be present in any particular month. Influences that are volatile or unsystematic can still make it difficult to interpret the movement of the series even after adjustment for seasonal variations. Therefore, the month-to-month movements of seasonally adjusted estimates may not be reliable indicators of trend behaviour.												
Trend	10	The trend is a long-term pattern or movement of a time series. The X-11 Seasonal Adjustment Program is used for smoothing seasonally adjusted data.												
Reliability of estimates	11	Data presented in this publication are based on information obtained from a sample of enterprises and is, therefore, subject to sampling variability; that is, it may differ from the figures that would have been produced if the data had been obtained from all motor trade enterprises in South Africa.												
	12	Inaccuracies may occur because of imperfections in reporting by enterprises and errors made in collection and processing of the data. Inaccuracies of this kind are referred to as non-sampling errors. Every effort is made to reduce non-sampling errors to a minimum by careful designing the questionnaires, pilot studies, editing of data and efficient operating procedures.												
Related publications	13	Users may also wish to refer to the following publications which are available from Stats SA: <ul style="list-style-type: none"> • Bulletin of Statistics. • SA Statistics. 												
Unpublished statistics	14	In some cases Stats SA can also make available statistics which are not published. This information can be made available in one or more of the following ways: computer printouts, diskette and CD. Generally a charge is made for providing unpublished statistics.												
Rounding-off of figures	15	When figures have been rounded-off discrepancies may occur between sums of the component items and totals.

Glossary

Enterprise (firm)	An enterprise (firm) is a legal entity consisting of one or more establishments (branches) including the head office, but excluding holding or subsidiary companies.
Establishment (branch)	An establishment (branch) is the smallest economic unit which operates as a separate entity, for which comprehensive financial records are kept.
Miscellaneous trading income	Miscellaneous trading income includes the income from the sales of petrol, diesel oil and lubricants.
Motor trading enterprise	A motor trading enterprise is an enterprise deriving 50% or more of its income from the sales of goods relating to the motor industry.
Other vehicles	Other vehicles include caravans, trailers and tractors.
Percentage change	<p>When using monthly actual values, the percentage change is the change in actual values of the motor trading income of the relevant month compared with the actual values of the motor trading income of the same month in the previous year expressed as a percentage.</p> <p>When using annual actual values, the percentage change is the change in the actual values of motor trading income of the relevant year compared with the actual values of motor trading income of the previous year expressed as a percentage.</p> <p>When using seasonally adjusted values, the percentage change is the change in the seasonally adjusted values of the motor trading income of the relevant month compared with the seasonally adjusted values of the motor trading income of the previous month, expressed as a percentage.</p>
Reference month	Reference month for the survey means one calendar month.
Total motor trading income	Total motor trading income includes the income from the sales of new vehicles, the sales of used vehicles, income from the workshop and all other trading income.
Workshop income	Workshop income includes labour charges, as well as spares, accessories, fuels and lubricants transferred to the workshop.

For more information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, locally and also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable), result from their own processing of the data.

Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:

National Library of South Africa, Pretoria Division
 National Library of South Africa, Cape Town Division
 Natal Society Library, Pietermaritzburg
 Library of Parliament, Cape Town
 Bloemfontein Public Library
 Johannesburg Public Library
 Eastern Cape Library Services, King William's Town
 Central Regional Library, Pietersburg
 Central Reference Library, Nelspruit
 Central Reference Collection, Kimberley
 Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

Electronic services

A large range of data are available via on-line services, CD, diskette and computer printouts. For more details about our electronic data services, contact (012) 310 8600/8095/8390/8351.
