Statistical release

Om 'n suksesvolle statistiese stelsel in die RSA te bedryf, is die samewerking tussen die Sentrale Statistiekdiens en die inwoners van die RSA, die private sektor en die owerheidsinstellings onontbeerlik. Sonder hierdie volgehoue samewerking en welwillendheid sal die tydige beskikbaarstelling van relevante en betroubare amptelike statistieke nie moontlik wees nie.

Co-operation between the Central Statistical Service and the residents of the RSA, the private sector and the government institutions is essential for a successful statistical system in the RSA. Without this continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

**TOENAME VAN 4,9% IN DIE INKOMSTE VAN BUITEBEGROTINGS-
REKENING EN -FONDSE IN 1993/94**

1. Die inkomste, uitgesonderd lenings, van die buitebegrotingsrekenings en -fondse het in die 1993/94-boekjaar R15 031,9 miljoen beloop teenoor R14 333,9 miljoen in die 1992/93-boekjaar wat 'n toename van 4,9% verteenwoordig.

Hierdie toename in inkomste was hoofsaaklik die netto effek van die toevoeging van die Onafhanklike Verkiesingskommissie (R979,1 miljoen), Staatsverkiesingsfonds (R53,0 miljoen), Uitvoerende Oorgangsraad (R15,8 miljoen) en die Raad vir Geowetenskap (R24,1 miljoen) tot die buitebegrotingsrekenings en -fondse en die uitsluiting van die Rekening vir die Ontwikkeling van Strategiese Mineralebronne, Houtproduksie en -verwerkingsbedryfsrekening en die voormalige Overvaaloorde asook die kleiner bydrae uit die Staatsinkomstefonds tot die Fondse van die Spesiale Verdedigingsrekening (kyk par. 5 - Vergelykbaarheid met vorige jaar). Die buitebegrotingsrekenings en -fondse het in 1993/94 59,7% van hulle totale inkomste in die vorm van oordragte uit die Staatsinkomstefonds en provinsiale inkomstefondse ontvang en 15,2% in die vorm van belastinginkomste teenoor onderskeidelik 52,4% en 14,5% in 1992/93. Die rente-inkomste in 1993/94 het 9,2% van die totale inkomste uitgemaak teenoor 10,4% in 1992/93.

2. Die totale uitgawes van die buitebegrotingsrekenings en -fondse toon in 1993/94 'n toename van 0,9% vergeleke met 1992/93. Lopende uitgawes het met 0,8% afgeneem terwyl direkte besteding aan kapitaalgoedere met 15,5% toegeneem het. Kapitaaloordragte het met 1,4% toegeneem.
3. Die totale inkomste en uitgawe van die buitebegrotingsrekenings en -fondse in 1992/93 en 1993/94 was soos volg:*

1. INLEIDING

- 1.1 Hierdie statistiese vrystelling toon 'n ekonomiese en funksionele indeling van die inkomste en uitgawe van buitebegrotingsrekenings en -fondse van die sentrale en provinsiale owerhede asook 'n kapitaalfinansieringsrekening vir die 1993/94-boekjaar. Die inligting word jaarliks gepubliseer. Inligting ten opsigte van die 1992/93-boekjaar is op 19 September 1994 gepubliseer.
- 1.2 Die Sentrale Statistiekdiens publiseer ook die volgende statistiese vrystellings oor die algemene owerheid:
- 1.2.1 Inkomste van die Staatsinkomste en ander inkomsterekenings (P9119.1)
- 1.2.2 Besteding van die sentrale owerheid (P9119.2)
- 1.2.3 Finansiële statistieke van universiteite en teknikons (P9103)
- 1.2.4 Finansiële statistieke van provinsiale administrasies tot 1991/92 (P9142.2) waarna dit by dié van die sentrale owerheid ingesluit is.
- 1.2.5 Gekonsolideerde besteding van die totale algemene owerheidsektor (P9119)
- 1.3 Die tabelle bevat besonderhede oor buitebegrotingsrekenings en -fondse van die sentrale owerheid met inbegrip van dié wat deur staatsdepartemente geadministreer word, sowel as provinsiale buitebegrotingsrekenings en -fondse wat nie deur die provinsiale administrasies geadministreer word nie. Die transaksies van die Geheime Diensterekening en die verskillende standaardvoorraadrekenings van staatsdepartemente is egter by hierdie tabelle uitgesluit en met die transaksies van die Staatsinkomsterekening gekonsolideer (statistiese vrystelling P9119.2). Die afwag- en standaardvoorraadrekenings en trustfondse van die provinsiale administrasies is by hierdie tabelle uitgesluit aangesien hulle met die begrotingsposrekenings van die provinsies gekonsolideer is. Die landboubeheerrade en die pensioen- en voorsorgfondse van die Staat maak nie deel van die owerheidsektor uit nie en is dus by hierdie tabelle uitgesluit. Die Openbare Beleggingskommissaris is ook by die tabelle uitgesluit. Sekere inligting oor hierdie instelling se verkryging van fondse word deur die Suid-Afrikaanse Reserwebank in sy Kwartaalblad gepubliseer.
- 1.4 In die tabelle is die buitebegrotingsrekenings en -fondse volgens funksie of doel ingedeel (uitgesonderd Tabelle 1 en 2) terwyl die transaksies in al die tabelle volgens die ekonomiese klassifikasie ingedeel is.

1. INTRODUCTION

- 1.1 This statistical release reflects an economic and functional classification of the revenue and expenditure of extrabudgetary accounts and funds of the central and provincial governments, as well as a capital finance account for the 1993/94 financial year. This information is published annually. Information in respect of the 1992/93 financial year was published on 19 September 1994.
- 1.2 The Central Statistical Service also publishes the following statistical releases concerning the general government:
- 1.2.1 Revenue of the State Revenue and other revenue accounts (P9119.1)
- 1.2.2 Expenditure of the central government (P9119.2)
- 1.2.3 Financial statistics of universities and technikons (P9103)
- 1.2.4 Financial statistics of provincial administrations up to 1991/92 (P9142.2) whereafter it is included with those of the central government.
- 1.2.5 Consolidated expenditure of the total general government (P9119)
- 1.3 The tables contain details of extrabudgetary accounts and funds of the central government including those which are administered by government departments, as well as provincial extrabudgetary accounts and funds which are not administered by the provincial administrations. The transactions of the Secret Services Account and the various standard stock accounts of government departments are however excluded from these tables and are consolidated with the transactions of the State Revenue Account (statistical release P9119.2). The suspense and standard stock accounts and trust accounts of provincial administrations are excluded from these tables as they are consolidated with the vote accounts of the provinces. The agricultural control boards and pension and provident funds of the State do not form part of the government sector and are therefore excluded from these tables. The Public Investment Commissioners are also excluded from the tables. Certain particulars on the acquisition of funds by this institution are published by the South African Reserve Bank in its Quarterly Bulletin.
- 1.4 In the tables the extrabudgetary accounts and funds are classified according to function or purpose (excluding Tables 1 and 2) while the transactions in all the tables are classified according to the economic classification.

- | | | | |
|-----|---|-----|--|
| 1.5 | Die transaksies tussen die verskillende buitebegrotingsrekenings en -fondse is nie uitgeskakel nie, maar word as oordragte aan en oordragte vanaf ander buitebegrotingsrekenings en -fondse getoon. Die totale bedrag wat buitebegrotingsrekenings en -fondse in hierdie verband ontvang is egter nie gelyk aan die totale bedrag betaal nie, aangesien die datum waarop 'n bepaalde betaling deur die betaler en die ontvanger in berekening gebring word, kan verskil. | 1.5 | The transactions between the various extrabudgetary accounts and funds have not been eliminated, but are shown as transfers to and transfers from other extrabudgetary accounts and funds. The total amount received by extrabudgetary accounts and funds in this connection is, however, not equal to the total amount paid, because the time at which a specific payment is recorded by the payer and receiver may differ. |
| 1.6 | In teenstelling met staatsdepartemente, wat hulle rekenings op 'n kontantbasis hou, word die rekenings van buitebegrotingsrekenings en -fondse, met enkele uitsonderings, op 'n oplopende basis gehou, d.w.s. die ontvangste en betalings word te boek gestel in die periode waarop die transaksies betrekking het en oorskotte, tekorte, bates en laste word na die volgende boekjaar oorgedra. By die kontantbasis word die transaksies te boek gestel op die tydstip wanneer tjeks vir betaling uitgereik word of wanneer die inkomste ontvang word. | 1.6 | In contrast to government departments, which keep their accounts on a cash basis, the accounts of extrabudgetary accounts and funds, with a few exceptions, are kept on an accrual basis, i.e. the receipts and payments are recorded in the period to which the transactions relate and surpluses, deficits, assets and liabilities are carried over to the next financial year. In the case of the cash basis, the transactions are recorded at the time when cheques are issued for payment or when income is received. |
| 1.7 | Waardevermindering verteenwoordig die voorsiening wat in die geouditeerde finansiële state van die rekenings of fondse getoon word. Daar is egter nie eenvormigheid in die metode waarvolgens vir waardevermindering voorsiening gemaak word nie. In sommige gevalle word die bates oor hulle nutsduur afgeskryf, terwyl in ander gevalle die bates ten volle afgeskryf word in die jaar waarin dit aangeskaf word. | 1.7 | Depreciation represents the provision shown in the audited financial statements of the accounts or funds. There is, however, not uniformity in the method for providing for depreciation. In some cases the assets are written off over their whole useful life, while in other cases the assets are written off in full in the year of purchase. |
| 1.8 | In teenstelling met die gebruik in die statistiese vrystelling oor die besteding van die sentrale owerheid is die aankope van meubels, boeke, ens. in hierdie tabelle as kapitaaluitgawes gehanteer. Gevolglik word hierdie bates afsonderlik onder bruto vaste kapitaalvorming in die kapitaalfinansieringsrekening getoon sodat hierdie items in die nasionale rekeningestelsel by kapitaalvorming uitgesluit kan word. | 1.8 | In contrast with the practice in the statistical release on the expenditure of the central government, purchases of furniture, books, etc. are treated as capital expenditure in these tables. Consequently these assets are shown separately under gross fixed capital formation in the capital finance account in order to exclude these items from capital formation in the system of national accounts. |
| 2. | BEGRIPE | 2. | CONCEPTS |
| 2.1 | Ekonomiese en funksionele klassifikasies

Die ekonomiese en funksionele indelings wat in hierdie statistiese vrystelling gebruik is, is in ooreenstemming met die standaardklassifikasies van die Internasionale Monetêre Fonds. Die ekonomiese klassifikasie onderskei die transaksies op grond van die invloed wat dit op die res van die ekonomie en die wêreld het. Die funksionele klassifikasie deel die transaksies in op grond van die verskillende soorte dienste wat die owerheid aan die gemeenskap lewer. | 2.1 | Economic and functional classifications

The economic and functional classifications used in this statistical release are in accordance with the standard classifications of the International Monetary Fund. The economic classification distinguishes the transactions in accordance with their effects on the rest of the economy and the world. The functional classification classifies the transactions in accordance with the various kinds of services rendered by the government to the community. |
| 2.2 | Kapitaalfinansieringsrekening

Hierdie rekening dui die wyse aan waarop die akkumulering van kapitaal (bruto vaste kapitaalvorming, voorrade en grond) gefinansier word. | 2.2 | Capital finance account

This account portrays the ways in which the accumulation of capital (gross fixed capital formation, inventories and land) is financed. |

3.2 Inkomste	3.2 Revenue
3.2.1 Selektiewe belasting op goedere	3.2.1 Selective taxes on goods
Hierdie item maak deel uit van indirekte belastinge en omvat verpligte heffings wat produsente aan die algemene owerheid betaal op die hoeveelheid goedere geproduseer.	This item forms part of indirect taxes and includes compulsory levies which producers pay to the general government on the quantity of goods produced.
3.2.2 Sosiale sekerheidsbydraes	3.2.2 Social security contributions
Dit omvat verpligte betalings deur versekerde persone of hulle werkgewers aan sosiale sekerheidsfondse.	It includes compulsory payments made by insured persons or their employers to social security funds.
4. METODE EN OMVANG VAN DIE OPNAME	4. METHOD AND SCOPE OF THE SURVEY
4.1 Die inligting is uit die geouditeerde finansiële state van die rekenings en fondse verwerk. Die staatsdepartemente het die inligting ten opsigte van die rekenings en fondse wat hulle administreer, uit die Finansiële Bestuurstelsel per magneetband verstrekk.	4.1 The information is processed from the audited financial statements of the accounts and funds. Government departments supplied the information in respect of the accounts and funds administered by them from the Financial Management System on magnetic tape.
