

Non-financial census of municipalities for the year ended 30 June 2003

PREFACE

Statistics South Africa (Stats SA) has undertaken an annual non-financial census of municipalities covering 284 municipalities with effect from 2002. The purpose of the census is to measure the level of development and performance of municipalities. The results of the census provide information that can serve as a framework to stakeholders and policy-makers for planning and monitoring. It allows national and provincial governments to analyse the actual services provided by municipalities in terms of water, electricity, solid waste management and sewerage and sanitation. The 2003 non-financial census of municipalities obtained information regarding:

- ◆ Particulars of total employment in the municipalities as at 30 June 2003.
- ◆ Demographic and social information as at 30 June 2003.
- ◆ Particulars of services provided between 1 July 2002 and 30 June 2003.

This statistical release contains the preliminary results of the 2003 non-financial census of municipalities and the revised figures for 2002. In the event of revised figures being obtained for 2003, they will be incorporated into the 2004 non-financial census of municipalities (if applicable).

Introduction

Background

Statistics South Africa conducted the first non-financial census of municipalities for the year ended 30 June 2002. A discussion document was produced and made available in December 2003. As a result of the proposals and recommendations made by both internal and external stakeholders, the results of non-financial municipal data for the financial year ended June 2003 is now published as a statistical release.

This publication of the non-financial municipal data will assist in monitoring the progress made with regard to the implementation of service provision, free basic services and poverty alleviation as national priorities.

Purpose of the survey

The purpose of the non-financial census of municipalities is to provide baseline non-financial information from those institutions classified as municipalities in terms of the Local Government Municipal Structures Act, 1998 (Act No. 117 of 1998).

The results of this census will be used to provide information that can serve as a framework to stakeholders and policy-makers for planning, as well as monitoring and evaluating the performance of municipalities. It will also allow national and provincial government and other stakeholders to analyse the actual services provided by municipalities.

Questionnaire and data collection

The questionnaire for 2003 was amended from that used for 2002, taking into consideration stakeholders needs. The methods used for collection were personal visits, telephone calls, facsimiles, emails and post. Data is then generally comparable for both 2002 and 2003 publication.

Methodology

Sampling

No sampling was done. All municipalities were covered by the census.

Projections of number of households

If the number of households reported by a municipality was taken from Census 2001 data, then this number was projected to June 2003 by Stats SA. The 2001 data were stratified by province and three demographic categories: gender, five-year age group and population group. The growth rates and projected figure between Census '96 and Census 2001 were calculated. For each province the total number of males and females, and the total number in each five-year age group were calculated. These totals were used as marginal totals for benchmarking the Census 2001 data.

Weighting

A two-stage weighting procedure was done that resulted in two sets of weights, household weights and person weights. The person weights are used for estimating the number of persons per household. The total estimated number of persons in 2003 was benchmarked to the marginal totals and benchmarked weights were used to estimate the number of persons and households per municipality and the number of persons per household.

Limitations of the survey

- This publication is not necessarily comparable with data from the population census of 2001 and Stats SA household surveys. This is partly because the data source for this publication is municipalities, and partly because of the different uses of the term 'household'. Most municipalities do not have a system for identifying multiple households served by one billing unit or delivery point.
- The electricity information in this publication does not include electricity provided by Eskom directly to households.

Key findings on selected variables for the year ended 30 June 2003

The number of households* receiving basic services from municipalities increased between 30 June 2002 and 30 June 2003. The largest increase in the provision of services was in water (1 499 381 households or 23,6 %), followed by sewerage and sanitation (1 166 523 households or 22,3%), solid waste management (1 106 445 households or 19,9%) and electricity (244 028 households or 6,3%).

Figure A: Number of households* receiving basic services from municipalities in South Africa for the year ended 30 June 2002 and 30 June 2003

*Household refers to a billing unit or delivery point.

Table A – Total employment by province

Province	Full-time		Part-time		Vacant posts		Total number of positions (2003)	Total number of positions (2002)	Percentage change (%)
	Number of employees	%	Number of employees	%	Number of employees	%			
Western Cape	37 439	88,2	3 371	7,9	8 071	16,5	48 881	46 318	5,5
Eastern Cape	19 562	87,5	446	2,0	2 342	10,5	22 350	18 927	18,1
Northern Cape	6 000	87,9	102	1,5	723	10,6	6 825	5 900	15,7
Free State	14 064	76,7	749	4,1	3 525	19,2	18 338	15 504	18,3
KwaZulu-Natal	32 336	88,5	2 947	8,1	1 265	3,5	36 548	34 951	4,6
North West	8 655	85,1	137	1,3	1 381	13,6	10 173	8 678	17,2
Gauteng	58 312	74,9	977	1,3	18 579	23,9	77 868	64 852	20,1
Mpumalanga	9 091	88,8	433	4,2	716	7,0	10 240	9 242	10,8
Limpopo	8 579	83,5	250	2,4	1 442	14,0	10 271	7 792	31,8
Total	194 038	82,6	9 412	4,0	38 044	15,8	241 494	212 164	13,8

Table A shows that on 30 June 2003 there were an estimated 241 494 positions in the municipalities in South Africa, of which 82,6% were occupied by full-time employees, 4,0% were occupied by part-time employees and 15,8% were vacant. Mpumalanga was the province with the highest percentage of full-time employees (88,8%), followed by KwaZulu-Natal (88,5%) and Western Cape (88,2%). The province with the lowest percentage of full-time employees was Gauteng (74,9%).

The province with the highest proportion of part-time employees was KwaZulu-Natal (8,1%), followed by Western Cape (7,9%) and Mpumalanga (4,2%). North West and Gauteng reflected the lowest proportion of part-time employees (1,3%). The province with the highest proportion of vacant posts was Gauteng (23,9%), followed by Free State (19,2%) and Western Cape (16,5%). The province with the lowest proportion of vacant positions was KwaZulu-Natal (3,5%). There was an increase of 13,8% in the overall number of positions between 30 June 2003 and 30 June 2002 in South Africa.

Table B – Managerial positions

Province	Full-time		Part-time		Vacant posts		Total number of managerial positions (2003)	Total number of managerial positions (2002)	Percentage change (%)
	Number of managers	%	Number of managers	%	Number of managerial positions	%			
Western Cape	604	90,6	31	4,6	32	4,8	667	359	85,8
Eastern Cape	395	82,3	48	10,0	37	7,7	480	462	3,9
Northern Cape	203	88,3	0	0,0	27	11,7	230	203	13,3
Free State	227	71,2	0	0,0	92	28,8	319	303	5,3
KwaZulu-Natal	603	87,3	16	2,3	72	10,4	691	674	2,5
North West	231	83,7	1	0,4	44	15,9	276	242	14,0
Gauteng	1 783	76,2	28	1,2	530	22,6	2 341	1 563	49,8
Mpumalanga	277	86,0	0	0,0	45	14,0	322	200	61,0
Limpopo	200	63,7	7	2,2	107	34,1	314	220	42,7
Total	4 523	80,2	131	2,3	986	17,5	5 640	4 226	33,5

Note: This table includes Local Economic Development managerial positions.

There were an estimated 5 640 managerial positions in municipalities in South Africa, which have been categorised according to section 57 of the Local Government Municipal Systems Act 2000 and the organisational organogram of individual municipalities. There were 4 523 full-time managers and 131 part-time managers, while 986 posts were vacant. Western Cape was the province with the highest percentage of full-time managers (90,6%), followed by Northern Cape (88,3%) and KwaZulu-Natal (87,3%). Limpopo had the lowest number of full-time managers (63,7%).

The province with the highest proportion of part-time managers was Eastern Cape (10,0%), followed by Western Cape (4,6%) and KwaZulu-Natal (2,3%). Northern Cape, Free State and Mpumalanga had no part-time managers.

Limpopo reported the highest proportion of vacant posts (34,1%), followed by Free State (28,8%). The province with the lowest number of vacant positions was Western Cape (4,8%).

There was an increase of 33,5% in the overall number of managerial positions between 30 June 2003 and 30 June 2002.

Table C – Households* receiving water from municipalities: South Africa

Province	Number of households receiving water service (2003)	Number of households receiving water service (2002) **	Percentage change (%)
Western Cape	1 103 720	1 065 235	3,6
Eastern Cape	779 336	685 295	13,7
Northern Cape	189 603	176 515	7,4
Free State	546 780	487 476	12,2
KwaZulu-Natal	1 214 632	1 030 237	17,9
North West	677 354	505 349	34,0
Gauteng	2 127 072	1 550 115	37,2
Mpumalanga	486 743	407 117	19,6
Limpopo	720 588	439 108	64,1
Total	7 845 828	6 346 447	23,6

* Household refers to billing unit or delivery point.

** This table contains revised figures for 2002, see part II of this volume.

Table C shows that there were an estimated 7,8 million households in South Africa receiving water from municipalities as at 30 June 2003. This represents an increase of 23,6% between 30 June 2002 and 30 June 2003.

The province with the highest increase between 2002 and 2003 was Limpopo (64,1%), followed by Gauteng (37,2%) and North West (34,0%). The province with the lowest increase was Western Cape with 3,6%, followed by Northern Cape (7,4%) and Free State (12,2%).

Table D – Households* receiving free basic water from municipalities: South Africa

Province	Number of households receiving water service (2003)	Free basic water services		Number of households receiving water service (2002)**	Free basic water services	
		Number of households (2003)	%		Number of households (2002) **	%
Western Cape	1 103 720	640 680	58,0	1 065 235	516 632	48,5
Eastern Cape	779 336	525 685	67,5	685 295	191 832	28,0
Northern Cape	189 603	136 829	72,2	176 515	119 862	67,9
Free State	546 780	500 360	91,5	487 476	314 191	64,5
KwaZulu-Natal	1 214 632	918 156	75,6	1 030 237	740 564	71,9
North West	677 354	578 974	85,5	505 349	414 789	82,1
Gauteng	2 127 072	1 728 901	81,3	1 550 115	1 493 366	96,3
Mpumalanga	486 743	348 299	71,6	407 117	257 029	63,1
Limpopo	720 588	559 783	77,7	439 108	141 433	32,2
Total	7 845 828	5 937 667	75,7	6 346 447	4 189 698	66,0

* Household refers to billing unit or delivery point.

** This table contains revised figures for 2002, see part II of this volume.

This table shows what proportion of households were benefiting from the free basic water policy. Of the 7,8 million households receiving water from municipalities in South Africa, 5,9 million (75,7%) had access to free basic water. Free State shows the highest proportion (91,5%) followed by North West (85,5%) and Gauteng (81,3%). Western Cape shows the lowest proportion (58,0%).

The 5,9 million households receiving free basic water from municipalities in 2003, as compared with 4,2 million households in 2002, represents an increase of 41,7%.

Table E – Households* receiving electricity from municipalities: South Africa

Province	Number of households receiving electricity service (2003)	Number of households receiving electricity service (2002) **	Percentage change (%)
Western Cape	816 706	800 341	2,0
Eastern Cape	448 111	410 333	9,2
Northern Cape	114 979	98 519	16,7
Free State	370 082	350 014	5,7
KwaZulu-Natal	760 857	723 162	5,2
North West	167 840	138 036	21,6
Gauteng	1 041 640	1 032 169	0,9
Mpumalanga	304 372	249 658	21,9
Limpopo	100 714	79 041	27,4
Total	4 125 301	3 881 273	6,3

* Household refers to billing unit or delivery point.

** This table contains revised figures for 2002, see part II of this volume.

Table E shows that there were an estimated 4,1 million households in South Africa receiving electricity from municipalities as at 30 June 2003. This represents an increase of 6,3% between 30 June 2002 and 30 June 2003.

The province with the highest increase was Limpopo (27,4%), followed by Mpumalanga (21,9%) and North West (21,6%). The province with the lowest increase of households receiving electricity service from municipalities was Gauteng with 0,9%, followed by Western Cape (2,0%) and KwaZulu Natal (5,2%).

Table F – Households* receiving free basic electricity from municipalities: South Africa

Province	Number of households receiving electricity service (2003)	Free basic electricity services		Number of households receiving electricity service (2002)**	Free basic electricity services	
		Number of households (2003)	%		Number of households (2002)**	%
Western Cape	816 706	526 647	64,5	800 341	299 018	37,4
Eastern Cape	448 111	278 522	62,2	410 333	31 731	7,7
Northern Cape	114 979	54 748	47,6	98 519	19 645	19,9
Free State	370 082	334 237	90,3	350 014	221 502	63,3
KwaZulu-Natal	760 857	31 414	4,1	723 162	2 500	0,3
North West	167 840	32 475	19,3	138 036	8 457	6,1

Mpumalanga	304 372	164 046	53,9	249 658	96 715	38,7
Limpopo	100 714	57 709	57,3	79 041	19 877	25,1
Total	4 125 301	2 363 311	57,3	3 881 273	1 589 607	41,0

* Household refers to billing unit or delivery point.

** This table contains revised figures for 2002, see part II of this volume.

This table shows what proportion of households receiving electricity from municipalities were benefiting from the free basic electricity policy. Of the 4,1 million households receiving electricity from municipalities in South Africa as at 30 June 2003, 57,3% had access to free basic electricity. Free State showed the highest proportion (90,3%), followed by Gauteng (84,8%) and Western Cape (64,5%). The province with the lowest proportion was KwaZulu-Natal (4,1%).

The 2,4 million households receiving free basic electricity from municipalities in 2003, as compared with 1,6 million households in 2002, represents an increase of 48,7%.

Table G – Households* receiving sewerage and sanitation services from municipalities: South Africa

Province	Number of households receiving sewerage and sanitation service (2003)	Number of households receiving sewerage and sanitation service (2002) **	Percentage change (%)
Western Cape	1 080 659	951 577	13,6
Eastern Cape	685 040	572 510	19,7
Northern Cape	171 133	151 246	13,1

Total	6 396 990	2 835 528	44,3	5 230 467	1 633 476	31,2

* Household refers to billing unit or delivery point.

** This table contains revised figures for 2002, see part II of this volume.

This table shows what proportion of households receiving sewerage and sanitation services from municipalities were receiving such services free. Of the 6,4 million households receiving sewerage and sanitation services from municipalities in South Africa as at 30 June 2003, 44,3% had access to free basic sewerage and sanitation services. Gauteng shows the highest proportion (59,7%), followed by Eastern Cape (54,5%) and Western Cape (44,8%). The province with the lowest proportion was Free State (15,5%).

The 2,8 million households receiving free basic sewerage and sanitation from municipalities in 2003, as compared with 1,6 million households in 2002, represents an increase of 73,6%.

Table I – Households* receiving solid waste management services from municipalities: South Africa

Province	Number of households receiving solid waste management service (2003)	Number of households receiving solid waste management service (2002) **	Percentage change (%)
Western Cape	1 085 854	1 028 413	5,6
Eastern Cape	791 935	590 614	34,1
Northern Cape	165 561	145 194	14,0

KwaZulu-Natal	977 179	954 462	2,4
North West	272 743	240 984	13,2
Gauteng	2 393 394	1 736 497	37,8
Mpumalanga	318 375	265 168	20,1
Limpopo	227 464	209 110	8,8
Total	6 667 948	5 561 503	19,9

* Household refers to billing unit or delivery point.

** This table contains revised figures for 2002, see part II of this volume.

Table I shows that there were an estimated 6,7 million households in South Africa receiving solid waste management service from municipalities as at 30 June 2003. This represents an increase of 19,9% between 30 June 2002 and 30 June 2003. The province with the highest increase was Gauteng (37,8%), followed by Eastern Cape (34,1%) and Mpumalanga (20,1%).

The province with the lowest increase was KwaZulu Natal with (2,4%), followed by Western Cape (5,6%) and Limpopo with (8,8%).

Table J – Households* receiving free basic solid waste management services from municipalities: South Africa

Province	Number of households receiving solid waste management service (2003)	Free basic solid waste management services		Number of households receiving solid waste management service (2002)	Free basic solid waste management services	
		Number of households (2003)	%		Number of households (2002)**	%
Western Cape	1 085 854	487 955	44,9	1 028 413	298 763	29,1
Eastern Cape	791 935	410 167	51,8	590 614	36 750	6,2
Northern Cape	165 561	63 781	38,5	145 194	41 583	28,6

Limpopo	227 464	40 988	18,0	209 110	28 887	13,8
Total	6 667 948	1 891 196	28,4	5 561 503	1 023 382	18,4

* Households refer to a billing unit or delivery point.

** This table contains revised figures for 2002, see part II of this volume.

This table shows what proportion of households receiving solid waste management services from municipalities were receiving the service free. Of the 6,7 million households receiving solid waste management services from municipalities in South Africa, 28,4% had access to these services free. Eastern Cape had the highest proportion (51,8%), followed by Western Cape (44,9%) and North West (43,1%). Mpumalanga shows the lowest proportion (13,9%).

The 1,9 million households receiving free basic sewerage and sanitation from municipalities in 2003, as compared with 1,0 million households in 2002, represents an increase of 84,8%.

Explanatory notes

Introduction	1	This publication contains results of the annual non-financial census of municipalities for the year ended 30 June 2003. The survey is designed to obtain information regarding: <ul style="list-style-type: none"> • Particulars of total employment in the municipalities as at 30 June 2003. • Demographic and social information as at 30 June 2003. • Particulars of services provided between 1 July 2002 and 30 June 2003.
Scope of the survey	2	This survey covers non-financial information of all 284 municipalities.
Classification	3	The <i>Standard Industrial Classification of all Economic Activities (SIC)</i> , the Fifth Edition, January 1993, was used to classify the statistical units (municipalities) in the census. The <i>SIC</i> is based on the 1990 <i>International Standard Industrial Classification of all Economic Activities (ISIC)</i> , with suitable adaptations for local conditions.
Statistical unit	4	The statistical unit for the collection of information is the municipality.
Reporting unit	5	Data were reported at district and metropolitan municipality level. (Data for local municipality is included in district municipality.)
Survey methodology and design	6	The information is collected annually from 284 municipalities administered through questionnaires by means of post, email and facsimile.
Reliability of estimates	7	Inaccuracies may occur because of imperfections in reporting by municipalities. Every effort is made to reduce errors to minimum by carefully designing the questionnaire, undertaking pilot studies/ workshops and editing the data.
Abbreviations and symbols	8	0 Nil or not applicable LED Local Economic Development IDP Integrated Development Plan WSDP Water Services Development Plan SIC Standard Industrial Classification of all Economic Activities ISIC International Standard Industrial Classification of all Economic Activities Stats SA Statistics South Africa
Comparability with previous census	9	The 2003 non-financial census of municipalities is generally comparable with 2002 non-financial census of municipalities.
Revision of data	10	Information is preliminary, and may be revised. The revised figures are due to respondents reporting revisions. Estimations made in 2002 for non-response have been revised on information provided by respondents.

Glossary

<i>District municipality</i>	District municipality means a municipality that has municipal executive and legislative authority in an area that includes more than one municipality, and which is described in section 155(1) of the Constitution as a category C municipality (Refer to The Local Government: Municipal Structures Act 1998, (Act No.117 of 1998)).
<i>Employees</i>	Employees are those people employed by the individual/enterprise/business/organisation who received payment (in salaries, wages commission, piece rates or payments in kind) for any part of the reference period (excluding independent contractors and employers).
<i>Formal dwelling</i>	A structure built according to approved architectural plans and intended for human habitation. This includes houses, flats and rooms.
<i>Full-time employees</i>	Full-time employees are those employees (permanent, temporary or casual) who normally work the agreed hours for a full employee in a specific occupation. If agreed hours do not apply, employees are regarded as full-time if they normally work 35 hours per week, including seasonal employees.
<i>Free basic electricity</i>	An amount of electricity determined by government that should be provided free to poor households to meet basic needs, currently set at 50kWh per month per household.
<i>Free basic water</i>	An amount of water determined by government that should be provided free to poor households to meet basic needs, currently set at 6kl per month per household.
<i>Household</i>	(a) A group of persons who live together and provide themselves jointly with food or other essentials for living, or a single person who lives alone. (b) A billing unit or delivery point. (Both definitions were specified in the questionnaire.) Given the different meanings of household, users are advised to use caution when comparing this publication with other Stats SA publications that report data at the household level (for example, the General Household Survey and the Labour Force Survey).
<i>Informal dwelling</i>	A makeshift structure not erected according to approved architectural plans. Include shacks or shanties in informal settlements or in backyards.
<i>Infrastructure</i>	Physical structures used for the delivery of services (e.g. power lines, pipes, roads and assets such as trucks and equipment to unblock sewerage, pay point offices and computers).
<i>Integrated Development Plan</i>	Is a process by which municipalities prepare 5-year strategic plans that is reviewed annually in consultation with communities and stakeholders.

<i>Local Economic Development</i>	Is an approach towards economic development which allows and encourages local people to work together to achieve sustainable economic growth and development thereby bringing economic benefits and improved quality of life for all residents in a local municipal area.
<i>Local municipality</i>	Local municipality means a municipality that shares municipal executive and legislative authority in its area with a district municipality within whose area it falls and is described in section 155(1) of the Constitution as a category B municipality. (Refer to The Local Government: Municipal Structures Act 1998, (Act No.117 of 1998)).
<i>Managerial position</i>	For the purpose of this survey, managerial positions refer to section 57 managers, according to the Local Government Municipal System Act, 2000 (Act No. 1187 of 20 Nov 2000) and other managers according to the organogram.
<i>Metropolitan municipality</i>	Metropolitan municipality means a municipality that has exclusive executive and legislative authority in its area, and which is described in section 155(1) of the Constitution as a category A municipality. (Refer to The Local Government: Municipal Structure Act 1998, (Act No.117 of 1998)).
<i>Municipality</i>	Municipality is a generic term describing the "unit" of government in the local spheres responsible for local government in a geographically demarcated area and includes district, local and metropolitan municipalities. A municipality is an institution consisting of a municipal council (elected political representatives) and the municipal administration (appointed officials).
<i>Part-time employees</i>	Part time employees are employees (permanent, temporary or casual) who are not full-time employees as defined above or who normally work less than 35 hours per week, including seasonal employees.
<i>Traditional dwelling</i>	Traditional dwelling is a dwelling made of clay, mud, reeds or other locally available materials. This is a general term that includes huts, rondavels, etc. Such dwellings can be found as single units or in clusters.
<i>Water Service Development Plan</i>	The WSDP is a sectoral plan that falls within the inter-sectoral umbrella plan of the IDP.

General information

Stats SA publishes approximately 300 different releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data, and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and from the following libraries:

State Library, Pretoria
Library of Parliament, Cape Town
South African Library, Cape Town
Bloemfontein Public Library
Natal Society Library, Pietermaritzburg
Johannesburg Public Library

Eastern Cape Library Services, King William's Town
Central Regional Library, Polokwane
Central Reference Library, Nelspruit
Central Reference Collection, Kimberly
Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

Electronic services

A large range of data are available via on-line services, diskette and computer printouts. For more details about our electronic data services, contact (012) 310 8095. You can visit us on the Internet at: www.statssa.gov.za
