Key findings

The net change in the stock of cash from provincial revenue funds and donor funds amounted to a cash surplus of R6 439 million for the 2011/2012 fiscal year.

Cash receipts from operating activities amounted to R374 809 million and cash payments for operating activities amounted to R339 355 million, resulting in a net cash inflow from operating activities of R35 454 million for the 2011/2012 fiscal year ended 31 March 2012. Purchases of non-financial assets amounted to R29 089 million for 2011/2012. Sales of non-financial assets amounted to R74 million for the 2011/2012 fiscal year, resulting in a net cash outflow from investments in non-financial assets of R29 015 million (see Table A, p.5).

The largest contributor to the total cash payments for operating activities and purchases of non-financial assets (functionally classified) of R368 444 million from the provincial revenue funds and donor funds for the 2011/2012 fiscal year was education (R160 105 million, contributing 43,5%), followed by health (R108 644 million or 29,5%), total economic affairs (R39 842 million or 10,8%), total general public services (R19 445 million or 5,3%), housing and community amenities (R16 865 million or 4,6%), social protection (R11 472 million or 3,1%), recreation, culture and religion (R5 891 million or 1,6%), public order and safety (R3 671 million or 1,0%) and environmental protection (R2 510 million or 0,7%) (see Table B, p.10 and Figure 3, p.11).

Economic classification of cash payments for operating activities and purchases of non-financial assets from provincial revenue funds and donor funds received

Provincial revenue funds refer to the votes of the provincial governments and fixed statutory appropriations. Economic classification of expenditure is in general a measure of the nature and economic effect of government operations on the economy of a country. There are seven main economic classification categories of cash payments for operating activities: compensation of employees; purchases of goods and services; interest; subsidies; grants; social benefits; and other payments.

The accounts of the provincial government are kept on a cash basis, i.e. all transactions are recorded at the time when warrant vouchers are issued for payment regardless of when obligations for payments originated.

Cash receipts from operating activities, the contribution of cash payments for operating activities and purchases of non-financial assets by economic classification

Cash receipts from operating activities increased by R39 462 million from R335 347 million in 2010/2011 to R374 809 million in 2011/2012. This increase was mainly due to an increase in grants received.

The largest contributor to total cash receipts from operating activities for the 2011/2012 fiscal year was grants (R362 673 million), followed by taxes (R7 769 million) and other receipts (R4 367 million).

Cash payments for operating activities increased by R33 354 million from R306 001 million in 2010/2011 to R339 355 million in 2011/2012. The increase was mainly due to an increase in compensation of employees.

The largest contributor to total cash payments for operating activities for the 2011/2012 fiscal year was compensation of employees (R217 467 million), followed by purchases of goods and services (R80 382 million), other payments (R26 008 million), subsidies (R7 410 million), grants paid (R6 948 million), social benefits (R1 067 million) and interest (R72 million) (see Table A, p.5 and Figure 1, p.6).

The increase of R23 798 million in compensation of employees from R193 669 million in 2010/2011 to R217 467 million in 2011/2012 was mainly due to increased payments by the KwaZulu-Natal, Gauteng and Eastern Cape provincial governments.

The increase of R7 490 million in purchases of goods and services from R72 892 million in 2010/2011 to R80 382 million in 2011/2012 was mainly due to increased payments by the KwaZulu-Natal, Gauteng and Eastern Cape provincial governments.

The increase of R726 million in subsidies from R6 684 million in 2010/2011 to R7 410 million in 2011/2012 was mainly due to increased subsidy payments made by the Gauteng and North West provincial governments to bus companies.

The increase of R594 million in grants paid from R6 354 million in 2010/2011 to R6 948 million in 2011/2012 was mainly due to increased grants to municipalities by the Gauteng and Western Cape provincial governments, as well as increased grants to extra-budgetary accounts and funds by the Gauteng provincial government.

The increase of R460 million in other payments from R25 548 million in 2010/2011 to R26 008 million in 2011/2012 was mainly due to increased capital transfers to households made by the Eastern Cape and KwaZulu-Natal provincial governments, as well as increased transfers to non-profit institutions serving households by the Gauteng provincial government.

The increase of R289 million in social benefits from R778 million in 2010/2011 to R1 067 million in 2011/2012 was mainly due to increased payments for employer social benefits by the Eastern Cape, Gauteng, and KwaZulu-Natal provincial governments.

The decrease of R3 million in interest paid from R75 million in 2010/2011 to R72 million in 2011/2012 was mainly due to decreased payments made by the KwaZulu-Natal provincial government.

The largest contributor to purchases of non-financial assets was fixed assets (R29 027 million), followed by non-produced assets (R56 million) and valuables (R6 million).

The increase of R3 933 million in purchases of non-financial assets from R25 156 million in 2010/2011 to R29 089 million in 2010/2011 was mainly due to increased payments on buildings and other fixed structures in the Eastern Cape, KwaZulu-Natal and Mpumalanga provincial governments.

Functional classification of cash payments for operating activities and purchases of non-financial assets from the provincial revenue funds and donor funds received

Functional classification of cash payments for operating activities and non-financial assets measures the purpose for which transactions are undertaken. It is generally used to measure the allocation of resources by government in order to promote government objectives and various services rendered to the community. The functionally classified expenditure categories are indicated in Table B, page 10. There are ten main categories of functional classification of cash payments for operating activities and purchases of non-financial assets: general public services; defence; public order and safety; economic affairs; environmental protection; housing and community amenities; health; recreation, culture and religion; education; and social protection.

The contribution of cash payments for operating activities and purchases of non-financial assets to total expenditure by functional classification

Total cash payments for operating activities and purchases of non-financial assets (functionally classified) from the provincial revenue funds and donor funds increased by R37 287 million from R331 157 million in 2010/2011 to R368 444 million in the 2011/2012 fiscal year.

The increase of R18 475 million in cash payments for education from R141 630 million in 2010/2011 to R160 105 million in 2011/2012 was mainly due to increased spending on education by the KwaZulu-Natal, Eastern Cape and Gauteng provincial governments.

The increase of R13 159 million in cash payments for health from R95 485 million in 2010/2011 to R108 644 million in 2011/2012 was mainly due to increased spending on health services by the Gauteng and KwaZulu-Natal provincial governments.

The increase of R1 711 million in cash payments for total economic affairs from R38 131 million in 2010/2011 to R39 842 million in 2011/2012 was mainly due to increased spending on transport by the KwaZulu-Natal, Mpumalanga and Eastern Cape provincial governments.

The increase of R1 659 million in cash payments for social protection from R9 813 million in 2010/2011 to R11 472 million in 2011/2012 was mainly due to increased spending on social protection services by the KwaZulu-Natal and Gauteng provincial governments.

The increase of R1 407 million in cash payments for total general public services from R18 038 million in 2010/2011 to R19 445 million in 2011/2012 was mainly due to increased spending on general services by the Western Cape, Free State and Gauteng provincial governments.

The increase of R864 million in cash payments for recreation, culture and religion from R5 027 million in 2010/2011 to R5 891 million in 2011/2012 was mainly due to increased spending on cultural services by the KwaZulu-Natal, Limpopo and Free State provincial governments.

The increase of R400 million in cash payments for public order and safety from R3 271 million in 2010/2011 to R3 671 million in 2011/2012 was mainly due to increased spending on public order and safety services by the KwaZulu-Natal, Limpopo and Eastern Cape provincial governments.

The increase of R255 million in cash payments for environmental protection from R2 255 million in 2010/2011 to R2 510 million in 2011/2012 was mainly due to increased spending on the protection of biodiversity and landscape by the Free State, KwaZulu-Natal and Western Cape provincial governments.

The decrease of R642 million in cash payments for housing and community amenities from R17 507 million in 2010/2011 to R16 865 million in 2011/2012 was mainly due to decreased spending on housing development by the Gauteng, Western Cape and Northern Cape provincial governments.

Explanatory notes

Introduction

This statistical release includes economic and functional classifications of transactions of provincial governments from the provincial revenue funds and donor funds received for the 2011/2012 fiscal year which ended 31 March 2012.

Provincial revenue funds refer to the votes of the provincial governments as well as fixed statutory appropriations.

Donor funds mainly consist of donations received from other countries and foreign institutions.

Disaggregated data (Tables 1 to 8) of Table C will be available on the Stats SA website.

Methodology

Provincial governments keep their accounts on a cash basis, i.e. all transactions are recorded at the time when warrant vouchers are issued for payment regardless of when obligations for payments originated. The statistics thus measure transactions as they are completed between the provincial governments and the rest of the economy.

The information is processed from the accounting systems of provincial departments. The total expenditure of each department corresponds with the totals published by the Auditor-General.

Scope of the financial statistics of provincial governments

The cash payment transactions of the following provincial governments (2011/2012 reporting departments) have been classified economically and functionally:

- Western Cape;
- Eastern Cape;
- Northern Cape;
- Free State;
- KwaZulu-Natal;
- North West;
- Gauteng;
- Mpumalanga; and
- Limpopo.

Classification

Cash payments for operating activities and non-financial assets in this statistical release are classified economically and functionally according to the 2001 GFS manual of the International Monetary Fund.

Economic classification is in general a measure of the nature and economic effect of government operations on the economy of the country.

Cash receipts and cash payments for operating activities and purchases of non-financial assets, sale of non-financial assets, net acquisition of financial assets other than cash and net incurrence of liabilities were classified economically as follows:

- **Cash receipts from operating activities**
 - Taxes
 - Social contributions
 - Grants
 - Other receipts

 - Foreign

Functional classification measures the purpose for which transactions are undertaken. It is generally used to measure the allocation of resources of government in order to promote various services and objectives rendered to the community. The functional codes used in the tables are based on the functional codes used in the 2001 GFS manual (IMF).

Cash payments for operating activities and purchases of non-financial assets are classified functionally as follows:

- **General public services**

- Executive and legislative services, financial and fiscal affairs, external affairs
- Foreign economic aid
- General services
- Basic research
- R&D General public services
- General public services n.e.c.
- Public debts transactions (mainly interest)
- Transfers of a general character between different levels of government

- **Defence**

- Military defence
- Civil defence
- Foreign military aid
- R&D Defence
- Defence n.e.c.

- **Public order and safety**

- Police services
- Fire protection services
- Law courts
- Prisons
- R&D Public order and safety
- Public order and safety n.e.c.

- **Economic affairs**

- General economic, commercial and labour affairs
- Agriculture, forestry, fishing and hunting
- Fuel and energy
- Mining, manufacturing and construction
- Transport
- Communication
- Other industries
- R&D Economic affairs
- Economic affairs n.e.c.

- **Environmental protection**

- Waste management
- Waste water management
- Pollution abatement
- Protection of biodiversity and landscape
- R&D Environmental protection
- Environmental protection n.e.c.

- **Housing and community amenities**

- Housing development
- Community development
- Water supply
- Street lighting
- R&D Housing and community amenities
- Housing and community amenities n.e.c.

- **Health**

- Outpatient services
- Ambulance services
- Hospital services
- Public health services
- R&D Health
- Health n.e.c.

- **Recreation, culture and religion**

- Recreational and sporting services
- Cultural services
- Broadcasting and publishing services
- Religious and other community services
- R&D Recreation, culture and religion
- Recreation, culture and religion n.e.c.

- **Education**

- Pre-primary and primary education
- Secondary education
- Post-secondary and non-tertiary education
- Tertiary education
- Education not defined by level
- Subsidiary services to education
- R&D Education
- Education n.e.c.

- **Social protection**

- Sickness and disability
- Old age
- Survivors
- Family and children
- Unemployment
- Housing
- Social exclusions n.e.c.
- R&D Social services
- Social protection n.e.c.

Individual and collective services	The disaggregated data (Tables 1 to 8) also include tables in which government consumption expenditure is broken down into individual and collective services (see Table 7 as listed in Annexure C, p.27). These categories are recommended by the 1993 System of National Accounts.
Subsidies on products and subsidies on production	The partitioning of subsidies into subsidies on products and subsidies on production is provided (see Table 8 as listed in Annexure C, p.27). These categories are recommended by the 1993 System of National Accounts.
Comparability with the previous year	The 2010/2011 classified information is generally comparable with the 2011/2012 information.
The Public Sector Classification Committee (PSCC)	The Public Sector Classification Committee (PSCC) consists of the South African Reserve Bank (SARB), Statistics South Africa (Stats SA), and National Treasury (NT). The purpose of the PSCC is to coordinate the economic institutional classification of the public sector units and subsectors for purposes of reporting to national and international stakeholders. The classification lists are made public by the SARB to inform stakeholders of the scope of the public sector and sub-sectors. The three primary stakeholders signed a Memorandum of Understanding. Classification of public sector institutions has taken place for the fiscal year ended 31 March 2011. Currently the PSCC is in the process of identifying and classifying public sector institutions for the year ended 31 March 2012.
Related publications	<p>Statistics South Africa also publishes information on the transactions of the following levels of the general government in statistical releases:</p> <p>P0441 <i>Gross Domestic Product</i>; P9101 <i>Capital expenditure by the public sector</i>; P9102 <i>Financial statistics of extra-budgetary accounts and funds</i>; P9103.1 <i>Financial statistics of higher education institutions</i>; P9114 <i>Financial census of municipalities</i>; P9119.3 <i>Financial statistics of national government</i>; and P9119.4 <i>Financial statistics of consolidated general government</i>.</p>

Revisions	Revisions are due to certain transactions which were reclassified owing to better information becoming available (from Annual Reports and the Vulindlela database).

Glossary

Accrual basis of recording	Accrual basis of recording means that flows are recorded at the time economic value is created, transformed, exchanged, transferred, or extinguished.
Capital expenditure	Any expenditure incurred or incidental to the acquisition or improvement of land, buildings, engineering structures and machinery and equipment. Note: The expenditure normally confers a lasting benefit and results in the acquisition of, or extends the life of a fixed or long-term work, irrespective of whether payments were made outside contractors or concerns, or the work was done by the enterprise itself. Capital expenditure includes vehicles, office furniture and equipment, but excludes minor items that are generally regarded as being expendable even though in some instances their useful lives may extend beyond one year.
Capital transfers	Capital transfers involve the acquisition of assets by the recipient and may consist of a transfer of cash that the recipient is expected or required to use to acquire an asset or assets (other than inventories), the transfer of an asset (other than inventories and cash), the cancellation of a liability by mutual agreement between the creditor and debtor, or the assumption of another unit's debt. If doubt exists regarding the character of a grant, it should be classified as current.
Cash basis of recording	Cash basis of recording means that transactions are captured when cash is received or when cash payment is made.
Collective services	Collective services refer to the services provided collectively to the community and are particularly applicable to services such as general administration, public order and safety and economic services.
Compensation of employees	Compensation of employees is the total remuneration, in cash, payable to a government employee in return for work done during the accounting period, except for work connected with own account capital formation. It includes both wages and salaries and social contributions.
Cultivated assets	Consist of animals and plants that are used repeatedly or continuously for more than one year to produce other goods or services.
Dwellings	Buildings that are used entirely or primarily as residences, including garages and other associated structures. Houseboats, barges, mobile homes, flats, hostels, nursing homes and caravans that are used as principal residences are also included. Dwellings acquired for military personnel are included because they are used in the same way as dwellings acquired by civilians.
Economic classification	A measure of the nature and economic effect of government operations on the economy of the country.
Extra-budgetary accounts and funds	Accounts and funds of national and provincial governments not included in normal budget totals and which do not operate through normal budgetary procedures of national and provincial government e.g. trading accounts and general government accounts.
Financial assets	Financial assets consist of financial claims, monetary gold and Special Drawing Rights (SDRs) allocated by the International Monetary Fund (IMF).

Financial public corporations	Units primarily engaged in both incurring liabilities and acquiring financial assets in the market. Note: Financial institutions may be entirely or mainly owned and/or controlled by the government in which case they are regarded as public financial institutions. It is the prime function of public financial institutions to act as intermediaries.
Fixed assets	Fixed assets are produced assets that are used repeatedly or continuously in production processes for more than one year.
Functional classification	Classification of expenditure according to the purpose for which transactions are undertaken. It is generally used to measure the allocation of resources by government in order to promote various services and objectives rendered to the community.
GFS Manual (2001)	The manual describes a specialised macroeconomic statistical system (Government Finance Statistics system) designed to support fiscal analysis.
Government consumption expenditure	Expenditure on all goods and services, which are used (without further transformation in the production) by the government units for the direct satisfaction of individual needs or wants or the collective needs of members of the community.
Grants	Grants are non-compulsory current or capital transfers received by a government unit from either another government unit or an international organization.
Households	Household may be defined as individuals or a small group of persons who share the same living accommodation.
Individual services	Community and social services, such as education, health and welfare, rendered to individuals or a small group of persons.
Intangible fixed assets	Consist of mineral exploration; computer software; entertainment, literary and artistic originals; and miscellaneous other intangible fixed assets. To qualify as a fixed asset, the item must be intended for use in production for more than one year and its use must be restricted to the units that have established ownership rights over it or to units licensed by the owner.
Liabilities	A present obligation of the entity arising from past events, the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.
Machinery and equipment	Machinery and equipment include motor vehicles, ships, aircraft, equipment and furniture. Military expenditure on machinery and equipment which could be used for civilian purposes is included.
Non-financial public corporations	Government owned and/or controlled units, which sell industrial or commercial goods and services to the public on a large scale.
Non-produced assets	Non-produced assets consist of tangible assets, natural occurring assets over which ownership is enforced. Natural occurring assets include land, subsoil assets and other naturally occurring assets.
Non-profit institutions serving households (NPISH)	Non-profit institutions which are mainly engaged in non-market production and serve households.

Non-residential buildings	All buildings other than dwellings. Examples of types of buildings included in this category are office buildings, schools, prisons, hospitals, buildings for public entertainment, warehouse and industrial buildings, commercial buildings, hotels and restaurants.
Other structures	All structures other than buildings. Included are the following: highways, streets, roads, bridges, elevated highways, tunnels, railways, subways, airfield runways, sewers, waterways, harbours, dams, other waterworks, shafts, tunnels, other structures associated with mining subsoil assets, communication lines, power lines, pipelines, outdoor sport and recreation facilities.
Residential buildings	All buildings that are used entirely or primarily as residences and include flats, hostels and nursing homes.
Social benefits	Social benefits are transfers in cash or in kind to protect the entire population or specific segment of it against certain social risks.
Social contributions	Social contributions are actual receipt from either employer on behalf of their employee or from employee, self-employed, or non-employed persons on their own behalf that secure entitlement to social benefits for their contributors, their dependents or their survivors.
Statutory appropriations	Statutory appropriations are amounts appropriated to be spent in terms of statutes and not requiring appropriation by vote.
Strategic stocks	Strategic stocks include goods held for strategic and emergency purposes, goods held by market regulatory organizations, and commodities of special importance to the nation, such as grain and petroleum.
Subsidies	Current unrequited payments that government units make to enterprises on the basis of levels of their production activities or the quantities or values of the goods and services that they produce, sell, export or import. Subsidies may be designed to influence levels of production, prices at which outputs are sold, or the remuneration of the enterprises.
Subsidies on production	Payments made to resident enterprises as a consequence of engaging in production which are not related to specific product. Included are subsidies on payroll or workforce, which are payable on the total wage and salary bill, the size of the total workforce or the employment of particular types of persons; subsidies to reduce pollution; and payments of interest on behalf of corporations.
Subsidies on products	Current unrequited payments that government units make to enterprises on the basis of quantities or values of the goods and services that they produce, sell, export or import.
Tax revenue (taxes)	Tax revenue is composed of compulsory transfers to the general government sector. Certain compulsory transfers, such as fines and penalties, are excluded from tax revenue.
Valuables	Valuables are produced goods of considerable value acquired and held primarily as store of value and not used primarily for purposes of production or consumption.
Vote	Vote is an appropriation voted by parliament.

Wages and salaries

Wages and salaries include primarily basic wages, salaries, services and other bonuses, allowances (including car allowances), overtime payments and housing subsidies.

General information

Stats SA publishes approximately 300 different releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

Advance release calendar

An advance release calendar is disseminated on www.statssa.gov.za

Stats SA products

A complete set of Stats SA publications is available at Stats SA Library and the following libraries:

National Library of South Africa, Pretoria Division
National Library of South Africa, Cape Town Division
Natal Society Library, Pietermaritzburg
Library of Parliament, Cape Town
Bloemfontein Public Library
Johannesburg Public Library
Eastern Cape Library Services, King William's Town
Central Regional Library, Polokwane
Central Reference Library, Mbombela
Central Reference Collection, Kimberley
Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

Electronic services

A large range of data is available via online services, diskette and computer printouts. For more details about our electronic data services, contact +27 12 310 8600 / 8390 / 8351 / 4892 / 8496 / 8095.
