KEY FINDINGS

1. Historical trends

For most of the 1980s the trends in the numbers of arrivals and departures of foreign travellers were fairly similar in pattern. Figure 1 shows that prior to 1986, the trend in the number of arrivals and departures remained reasonably steady at around 500 000 per annum. From 1986 to 1990, there was a gradual increase in the number of foreign travellers to South Africa and between 1990 and 1993, the rise was very steep. After 1993 the pace of increase in arrivals continued, but there was a marked lag between the number of arrivals and the number of departures. The number of arrivals and departures declined in 1997 and 2001.

Figure 2 shows the trend in arrivals and departures of South African residents from 1980 to 2004. In general, the volume of departures and arrivals was more or less the same. The sudden drop in the number of arrivals and departures of South African residents in 2003 and 2004 is a reflection of the impact of the new Immigration Act (Section 9 of Act 13 of 2002) that did not require the recording of the international movements of South African residents.

2. Foreign travellers to South Africa during 2004

2.1 Summary of totals

Table 2.1.1 indicates that during 2004, the number of foreign travellers to South Africa was 6 815 196, an increase of 2,6% compared to the 2003 volume of 6 640 095. The highest number of foreign arrivals was recorded in the summer month of December while the lowest number of foreign arrivals was recorded in the winter month of June.

During 2004, 1 953 221 overseas travellers visited South Africa. The 2004 figure represents an increase of 0,5% over the 2003 figure of 1 943 203. From mainland Africa, the number of travellers visiting South Africa was 4 709 776. This figure represents a 4,2% increase compared with the 2003 figure of 4 519 616 (see Table 2.1.3).

2.2 Mode of travel and ports of entry and departure

Table 2.1.2 indicates that during 2004, as many as 460 019 (67,5%) foreign travellers arrived in South Africa by road, followed by air arrivals of 2 025 211 (29,7%). In addition, 6 239 (0,1%) travellers came by rail and 2 595 (0,04%) by sea. Of the total number of foreign travellers arriving by air, 1 555 531 (76,8%) came through Johannesburg International Airport (currently known as OR Tambo International Airport); 450 096 (22,2%) arrived through Cape Town International Airport, 6 923 (0,3%) through Durban International Airport and 12 661 (0,6%) through other airports.

Table 2.1.4 indicates that there were 1 669 410 air arrivals from overseas in 2004, which account for 85,5% of all overseas arrivals. The number of overseas travellers arriving by road was 273 332 (14,0%) and the number arriving by sea, rail and unspecified mode of travel was 10 479 (0,5%). The total number of travellers who arrived by road during 2004 from mainland Africa was 4 317 485 (91,7%). The number arriving by air was 342 571 (7,3%) and those arriving by sea, rail or unspecified mode of travel was 49 720 (1,0%).

Table 3.1.1 indicates that road transport 4 135 717 (67,9%), was the most common mode of travel used by foreign travellers departing South Africa. This was followed by air travel (1 945 991 or 31,9%). Of the total number of foreign travellers departing by air, 1 490 505 (76,6%) left through Johannesburg International Airport, 436 960 (22,5%) departed through Cape Town International Airport, 6 025 (0,3%) through Durban International Airport and 12 501 (0,6%) through other airports.

2.3 Country of residence

Figure 3 shows the distribution of foreign travellers from mainland Africa by leading source countries. These countries were: Lesotho 1 483 331 (31,5%); Swaziland 852 682 (18,1%); Botswana 806 371 (17,1%); Zimbabwe (557 911 or 11,8%); Mozambique (405 606 or 8,6%); Namibia (226 523 or 4,8%); and Zambia (122 516 or 2,6%).

When comparing arrival figures from mainland Africa for 2003 and 2004, there were increases in the number of travellers arriving from the following countries: Lesotho (14,9% up from 1 291 242 in 2003); Swaziland (5,4% up from 809 049 in 2003); Botswana, (1,1% up from 797 315 in 2003), Namibia, (4,4% up from 216 978 in 2003), and Zambia (5,9% up from 115 650 in 2003). However, the number of arrivals from Mozambique (14,6% down from 474 790 in 2003) and Zimbabwe (1,9% down from 568 626 in 2003) declined.

As presented in Figure 4, the leading source countries for overseas travellers were: the UK, 462 644 (23,7%); Germany, 249 575 (12,8%); the USA, 213 369 (10,9%); France, 111 635 (5,7%); the Netherlands, 122 274 (6,3%); Australia, 76 709 (3,9%); Italy, 51 063 (2,6%); China, 46 050 (2,4%); and India, 39 198 (2,0%).

When comparing arrival figures from overseas countries for 2003 and 2004, there were increases in the number of travellers arriving from the following countries: the USA (10,8% up from 192 561 in 2003); Australia (5,5% up from 72 728 in 2003); Italy (1,3% up from 50 403 in 2003); and China (39,0% up from 33 129 in 2003). However, the number of arrivals from the UK (0,1% down from 463 021 in 2003); Germany (4,4% down from 261 194 in 2003); France (16,8% down from 130 365 in 2003); the Netherlands (0,4% down from 122 565 in 2003); and India (8,7% down from 42 954 in 2003) declined.

2.4 Purpose of visit

Figure 5 shows that, of the overseas travellers visiting South Africa during 2004, 1 790 944 (91,7%) reported that they were in South Africa on holiday; while 81 376 (4,2%); 49 530 (2,5%) and 14 045 (0,7,%) had come for business, to work and to study respectively. Similarly, data presented in Figure 6 indicate that 4 274 406 (90,8%) of the travellers from mainland Africa reported that they were in South Africa on holiday; while 141 610 (3,0%); 28 944 (0,6%) and 121 482 (2,6%) had come for business, to work and to study respectively.

Figure 7 indicates that most of the travellers who were here on holiday from mainland Africa came from Lesotho, 1 380 099 (32,3%); followed by Swaziland, 827 285 (19,4%); Botswana, 731 423 (17,1%) and Zimbabwe, 507 292 (11,9%). Furthermore, travellers who came to South Africa for business (see Figure 8) were mainly from Lesotho, 34 524 (24,4%); Zimbabwe, 32 029 (22,6%); and Namibia 23 326 (16,5%). With respect to travellers from overseas, those on holiday (see Figure 9) were mainly from the UK, 436 050 (24,3%); Germany, 236 915 (13,2%); and the USA, 196 950 (11,0%). Travellers who came to South Africa for business were from the UK, 16 435 (20,2%); the USA, 8 106 (10,0%); and Germany, 6 083 (7,5%) as shown in Figure 10.

3. South African residents during 2004

Table 2.2.1 indicates that during 2004, as many as 262 420 (60,4%) South African residents arrived in South Africa by road, followed by 171 170 (39,4%) air arrivals. A total of 810 (0,2%) arrived by sea, rail and unspecified mode of transport. Of the total number of South African residents arriving by air, 144 654 (84,5%) came through Johannesburg International Airport, while 23 024 (13,5%) arrived through Cape Town International Airport, 1 028 (0,6%) through Durban International Airport and 2 464 (1,4%) through other Airports.

Table 3.2.1 indicates that road, 243 242 (58,1%), was the most common mode of travel used by South African residents departing South Africa. This was followed by air travel, 174 447 (41,7%). A total of 896 (0,2%) left by sea, rail and unspecified mode of transport. Of the total number of residents departing by air, 146 706 (84,1%) used Johannesburg International Airport, while 24 107(13,8%) left through Cape Town International Airport; 1 080 (0,6%) through Durban International Airport and 2 554 (1,5%) through other airports.

EXPLANATORY NOTES

1. Introduction

This annual report contains information on population movements into and out of South Africa for the year 2004. It reports on arrivals and departures of South African and foreign travellers. Travellers include (a) same-day visitors and tourists; and (b) other travellers such as migrant workers, business persons and students.

Legal movements across South African borders as well as legal immigration into South Africa fall under the jurisdiction of the Department of Home Affairs (DHA). Statistics South Africa (Stats SA) then processes and publishes this information.

Administrative data sources from the DHA, that is, information from all the country's ports of entry and applications for permanent residence, constitute the only comprehensive source of information on foreign arrivals and departures, documented immigrants and emigrants. The information from this source of data provides the best national coverage (in terms of both space and time) of the population movements of South African residents and foreign travellers. The data:

- can be used to estimate, monitor and understand salient characteristics of foreign travellers and volumes of South African residents travelling outside South Africa;
- can, in the absence of information on foreign tourists, be further analysed to provide some indication of international tourism; and
- provide information that can be used to (a) assess the extent of government's progress in strengthening bilateral political and economic relations by assessing the number of international tourist arrivals; and (b) benchmark surveys focusing on demand for local tourism services by foreign travellers.

2. Data

Data routinely collected by immigration officers at all land, air and sea entry ports on all travellers (South African residents and foreign travellers) arriving into or departing from South Africa are captured into the DHA's population Movement Control System (MCS). Generally the data are collected directly from travel documents, either by scanning or by capturing onto the port's electronic database. Individual ports regularly transmit data onto the national database at the head office of the DHA. Statistics South Africa (Stats SA) downloads the data covering a particular calendar month from the mainframe of the State Information Technology Agency (SITA), where the DHA stores its data.

3. Definitions

3.1 Definitions used by the United Nations World Tourism Organisation (UNWTO)

International traveller refers to any person on a trip between two or more localities in different countries.

Tourism comprises the activities of persons travelling to, and staying in places outside their usual environment, for not more than one consecutive year, for leisure, business and other purposes. The usual environment of a person consists of a certain area around his/her place of residence, plus all other places he/she frequently visits.

Tourist (overnight visitor) is a visitor who stays at least one night in collective or private accommodation in the place.

Traveller refers to any person on a trip between two or more localities (e.g. countries).

Visitor refers to any person travelling to a place other than that of his/her usual environment for less than 12 consecutive months, and whose main purpose of the trip is other than the exercise of an activity remunerated from within the place visited. An international tourist is an international visitor who stays at least one night in collective or private accommodation in the country visited. Domestic tourist refers to a domestic visitor who stays at least one night in collective or private accommodation in the place visited.

3.2 Definitions used specifically in this report

Border traffic concession is granted to a person who crosses the border on a frequent basis. This concession is granted for a maximum of six months after which it can be renewed if necessary. No mode of travel is available for border traffic concessions.

Foreign traveller refers to a person who is not a South African citizen or permanent resident.

South African resident refers to either a South African citizen or a non-South African citizen with a South African permanent residence permit.

Overseas refers to all countries outside mainland Africa.

4. Abbreviations and symbols

..	= Data not available
-	= Nil or not applicable (when standing alone)
Dem	= Democratic
Rep	= Republic
UK	= United Kingdom
USA	= United States of America

5. Limitations

The main limitation of the published information is its inability to directly measure the volume of tourists. The main aspects of the United Nations World Tourism Organisation's (UNWTO) definition of a tourist are duration of stay and whether individuals are remunerated in the place being visited. Although the intended duration of stay can be inferred from the expiry date of the temporary residence permit, this does not necessarily translate into actual duration of stay. In addition, the data do not provide information on the remuneration status of travellers in South Africa.

The information on the total number of arrivals and departures of South African residents is collected from the scanning of passports. However, data on country of final destination and purpose of visit will be available when the re-introduction of the departure forms is fully operational at the three international airports (OR Tambo, Cape Town and Durban). Processing of available departure forms from the three international airports is currently underway.

6. Related publications

Tourism statistics are also published in the quarterly *Bulletin of Statistics* and in the monthly Statistical Release P0351: *Tourism and Migration*.
